Columbia University in the City of New York

GENERAL STATEMENT

HISTORICAL

On October 31, 1754, Letters Patent were issued incorporating THE GOVERNORS OF THE COLLEGE OF THE PROVINCE OF NEW YORK IN THE CITY OF NEW YORK IN AMERICA and providing for the establishment of a college to be known as King's College "for the Instruction and Education of Youth in the Learned Languages and in the Liberal Arts and Sciences." The conclusion of the Announcement issued in the same year reads: "A serious, virtuous, and industrious Course of Life being first provided for, it is further the Design of this College to instruct and perfect the Youth in the Learned Languages, and in the Art of Reasoning exactly, of Writing correctly, and Speaking eloquently; and in the Arts of Numbering and Measuring, of Surveying and Navigation, of Geography and History, of Husbandry, Commerce, and Government; and in the Knowledge of all Nature in the Heavens above us, and in the Air, Water, and Earth around us, and the various Kinds of Meteors, Stones, Mines, and Minerals, Plants and Animals, and of every Thing useful for the Comfort, the Convenience, and Elegance of Life, in the chief Manufactures relating to any of these things: And finally, to lead them from the Study of Nature, to the Knowledge of themselves, and of the God of Nature, and their Duty to Him, themselves, and one another; and every Thing that can contribute to their true Happiness, both here and hereafter." The educational work of the College was at once begun under the presidency of Dr. Samuel Johnson with a class of eight students and the first Commencement was held on June 21, 1758. The first college building, erected on a portion of the "King's Farm," at what is now the corner of Park Place and Church Street, was completed in 1760. The Revolutionary War, during which this building was taken for military purposes, compelled a suspension of activities. King's College numbers among its students and graduates Alexander Hamilton, John Jay, Robert R. Livingston, Gouverneur Morris, and John Stevens.

In 1784, the Legislature of the State of New York passed an act incorporating the "REGENTS OF THE UNIVERSITY OF THE STATE OF NEW YORK," vesting the property of King's College in the Regents, and changing the name of the College to Columbia College. In 1787, this act was repealed, and an act was passed, confirming the Royal Charter of 1754, and vesting the property and franchises of King's College in "The Trustees of Columbia College in the City of New York."

In 1810, the charter was again amended in certain particulars at the request of the Trustees, and re-enacted, but the corporate title remained the same until 1912 when by order of the Supreme Court of the State of New York it was changed to "The Trustees of Columbia University in the City of New York." In 1897 the University removed from Forty-ninth Street and Madison Avenue, where it had been situated since 1857, to its present location on Morningside Heights.

BUILDINGS AND GROUNDS

The general plan of the buildings of the Corporation on Morningside Heights comprises three groups, the principal one of which occupies the site on the northerly side of 116th Street, extending to 120th Street and another, the site on the southerly side of 116th

The University Library is of Indiana limestone. The other buildings, in conformity to the general design, are constructed of overburned brick and limestone, set, as is also the Library, upon a base of granite. A model of all the University buildings (20 ft. x 35 ft.), now existing and as projected, and showing the buildings in detail and in their relation to each other, is on view in the basement of Kent Hall.

WHITTIER HALL (202 ft. x 100 ft.), erected 1901, adjoining Teachers College on the east, is the Residence Hall for women students and officers. Four apartment houses are also used for residence purposes. ORGANIZATION

The title to all corporate property is vested in a board of twenty-four Trustees whose term of office is for life, and who form a self-perpetuating body, exercising the power of appointment as to all officers of instruction and administration and general oversight and control of the affairs of the University. In 1909 provision was made for the nomination by the alumni of six of the twenty-four Trustees.

The duties of the President of the University and other administrative officers, the composition and functions of the University Council, and the organization and jurisdiction of the faculties, are defined by the Statutes of the University, Chapters I, II, III, V. See Index.

SCHOOLS AND COLLEGES

The schools and colleges composing the University are as follows: Columbia College, the Schools of Law, Medicine, the School of Engineering (Faculty of Applied Science), the Graduate Faculties of Political Science, Philosophy, and Pure Science, Barnard College, Teachers College (including New College), the School of Architecture, the College of Pharmacy, the Schools of Journalism, Business, Dentistry, Nursing, Library Service, St. Stephen's College, Seth Low Junior College, Institute of International Affairs, New York Post-Graduate Medical School, Union Theological Seminary, University Extension, and Summer Session. The organization is set forth in the University Statutes, Chapters IX–XXVIII, XXXI and XXXII. The Faculties are listed in the school statements (see Index) with general summary of the curricula. For details consult the Announcements of the separate schools.

DEPARTMENTS AND DIVISIONS

The several departments of study maintained by the University are grouped for administrative purposes in Divisions. See Chapter IV of the University Statutes.

GENERAL REGULATIONS

STUDENTS

A student who has fulfilled the preliminary qualifications for candidacy for a degree, certificate or diploma in regular course is enrolled as a matriculated student of the University. Acceptance is based on grounds of character and health as well as on the fulfillment of academic requirements. A period of regular attendance upon all stated academic exercises amounting to at least one academic year must be completed by every candidate for a degree.

Students prevented by conscientious scruples from complying with academic requirements which may be fulfilled only upon days set apart by their church for religious observance should make application to the appropriate authority for equitable relief.

In exceptional circumstances a student not enrolled as a matriculated student may be admitted to the University as a non-matriculated student with permission to attend such courses of instruction as he is qualified to take but not as a candidate for a degree, certificate or diploma in regular course. Non-matriculated students are expected to conform to the same standards of attendance and scholarship as are required of matriculated students. Non-matriculated students may receive formal statement of the satisfactory completion of any course.

ACADEMIC DISCIPLINE

The continuance of each student upon the rolls, the receipt by him of academic credits, his graduation, or the conferring of any degree or the granting of any certificate are strictly subject to such exercise of the disciplinary power of the University as may be necessary to enforce the rules of the University and to maintain standards of personal conduct and character acceptable to the University. In the exercise of academic discipline, the student's conduct outside as well as inside the University will be taken into consideration. The disciplinary authority of the University is vested in the President in such cases as he deems proper, and subject to the reserve powers of the President, in the Dean of each Faculty and the Director of the work of each Administrative Board.

REGISTRATION

Before attending University courses each student must present himself at the office of the Registrar, and file a registration blank giving such information as may be required for the University records together with a statement of the courses he is authorized to pursue. The central office of the Registrar, University Hall, and the offices at Barnard College, at Teachers College, at the College of Physicians and Surgeons, at the School of Dental and Oral Surgery, at Seth Low Junior College, and at St. Stephen's College are open for registration on the dates for registration given in the Academic Calendar (see Index). Registration at a later date is permitted only with the written consent of the Dean or Director, satisfactory cause for the delay having been shown. Students registering late are held accountable for absences thus incurred.

Students holding fellowships or scholarships are required to register not later than the date specified in the Academic Calendar; failure to do so may be considered as vacating the fellowship or scholarship.

GRADUATION

Diplomas are issued only at Commencement, and in February and October (for A.M. degrees at Commencement, in February and December, or, in the case of the Ph.D. and J.D. degrees, upon the completion of the requirements); also in August for the D.D.S. degree in Dentistry and for the B.S. degree in Optometry.

WITHDRAWAL

GENERAL INFORMATION

EMPLOYMENT FOR STUDENTS

The Appointments Office, located in Earl Hall, is the central placement department of the University through which men and women students and graduates are referred to suitable positions during their courses and after graduation.

In the field of part-time work the Appointments Office endeavors to secure for competent students who need employment to help finance their courses, the opportunity to earn enough for their partial support. In the past, the office has been able to place students, both during the academic year and in the summer, as tutors, clerks, translators, athletic instructors, technical workers, salesmen, stenographers, secretaries, typists, et cetera. At present, however, general economic conditions have so affected employment opportunities that very little work of any kind is available and no prospective student should come to Columbia expecting to depend largely upon the assistance of the Appointments Office, but should be prepared to meet practically all expenses.

APPOINTMENTS WORK

In the field of permanent employment, the work is divided between the Appointments Office located in Earl Hall and the Bureau of Educational Service at Teachers College. Graduates of the University are eligible to file their credentials in either office according to the type of positions desired. No fee is charged for any services rendered.

The Appointments Office recommends graduates, both men and women, for suitable positions in business, professional, and technical work, and in teaching and administrative positions in colleges and universities, except those in education. The office functions in coöperation with the various educational departments, all recommendations being made after consultation with a representative of the appropriate department. A booklet describing in detail the work of the office, the opportunities for employment, and the personal qualifications that make for success will be mailed on request. Communications should be addressed to the Secretary of Appointments, Earl Hall.

The Bureau of Educational Service at Teachers College recommends qualified candidates for positions in the various fields of education. The Bureau of Educational Service also maintains a part-time employment service for students in Teachers College. Booklets descriptive of the work of the Bureau will be sent on request.

RELATIONS BETWEEN THE UNIVERSITY AND OTHER INSTITUTIONS

The educational opportunities of students in Columbia University (including Barnard College, Teachers College, and the New York College of Pharmacy) are increased by the close relations of the University with other institutions of instruction and research.

Museum of Natural History. The American Museum of Natural History places its collections at the service of advanced students of Columbia University for the purpose of study and research, and provides them with the necessary facilities for work.

Metropolitan Museum of Art. The Metropolitan Museum of Art admits students of Columbia University on presentation of cards of introduction from the University, and gives them special facilities for the study of the objects in the Museum.

New York Botanical Garden. Columbia University has the privilege of conducting University courses in botany at the New York Botanical Garden and of using its laboratories and floral material, and all courses of instruction given there are open to officers and students of the University without charge. The Director is a member of the Faculty of Pure Science. For a description of the equipment of the Botanical Garden see the statement of the Department of Botany.

Union Theological Seminary. The Faculty of the Union Theological Seminary has the status of a University faculty in the educational system of the University through representation on the University Council and is empowered to recommend candidates for the degree of Master of Arts in the Literature and Religion of the Bible and in the Comparative Study of Christianity and Other Religions and in Christian Education. The Seminary admits students of high standing in the University to certain lectures in its regular and special courses. The library of the Seminary, for reference, is open to all qualified students of the University.

Greenwich House Settlement. This settlement is affiliated with Columbia University and offers to students facilities for contact with economic and social conditions on the lower West Side of New York City and for direct acquaintance with the activities of a settlement house. The settlement also provides residence facilities for a small number of both men and women students.

Institute of Public Administration. This Institute is permanently affiliated with Columbia University under the governance of an Administrative Board constituted jointly by the Trustees of the University and the Trustees of the Institute. The Institute is primarily a research agency in the field of government and public administration. Properly qualified students have the opportunity to participate in the research activities of its staff and to carry on researches under their supervision and direction.

University of Puerto Rico. Columbia University is affiliated with the University of Puerto Rico through the School of Tropical Medicine of the University of Puerto Rico, which is conducted under the auspices of Columbia University. In this school courses are offered and research conducted in subjects relating to tropical medicine. Under certain circumstances courses in the School will be accepted for credit toward graduate degrees in Columbia University.

Other Institutions. The College of Physicians and Surgeons is in close alliance with the Presbyterian Hospital, including the Vanderbilt Clinic and the Sloane Hospital for Women, the Neurological Institute, State Psychiatric Hospital, and the Babies' Hospital, and is strongly represented on the staff of many other institutions, and regular clinical instruction at hospitals is made a prominent feature of the program. In many of these hospitals the fourth-year students are admitted as clinical clerks to serve on the house staff.

The University contributes to the support of the schools in Athens, in Rome, and in Palestine, which are associated with the Archæological Institute of America, and the advantages of these schools are freely open to graduates.

There are close informal relations between the University and the New York School of Social Work, the Hispanic Society of America, the Rockefeller Institute for Medical Research, the New York Zoölogical Garden, the New York Aquarium, and the laboratories at Woods Hole and Cold Spring Harbor.

THE LIBRARIES

The libraries of the University contain about 1,350,000 volumes, exclusive of unbound pamphlets.

Among the notable special collections may be mentioned the Phoenix Library, consisting of 7,000 volumes, the gift of Stephen Whitney Phoenix, of the Class of 1859; the Avery Architectural Library, a collection of about 31,000 volumes relating to architecture and decorative art; the Townsend Library of national, state, and individual war records; Temple Emanuel Library of biblical and rabbinical literature; Holland Society Library (including a Grotius collection); Montgomery Library of accountancy; the Seligman Library of economics; the Marvyn Scudder financial library; the David Eugene Smith Library on the history of mathematics; the Dale Library of weights and measures; Goethe collection, Kant collection, Mary Queen of Scots collection, special collections on the French Revolution, Jeanne d'Arc, anarchism, the drama, Rumanian literature, music, a collection of contemporary French literature at the Maison Française, the library of current German books, periodicals, and newspapers at the Deutsches Haus, the Paterno Library at the Casa Italiana, a Chinese Library and a Japanese collection; and the Bryson, Avery, Sachs, and Baldwin collections in the Teachers College Library. The Library possesses also the library that was gathered for the Reform Club of the city of New York.

Reading Rooms. About 20,000 carefully selected reference books including an extensive collection of national and subject bibliographies are placed in the general reading room directly accessible to all authorized readers. On the same floor, in the north wing, is the periodical reading room, where are shelved the current numbers of government documents and periodicals.

For the convenience of undergraduates of Columbia College, there is in Hamilton Hall a College Study containing a reference library of more than 30,000 volumes.

Connected with the stacks in which are stored the books relating especially to philosophy, literature, the languages, the sociological and economic sciences and history, are special study rooms, open only to authorized readers, which afford to advanced students and investigators in these fields opportunity to carry on their work in quiet rooms in the immediate vicinity of the literature of the subjects under consideration. The various departments of instruction have special libraries in close connection with their laboratories and lecture rooms.

The law library, the library of Teachers College, which is the educational library of the University, and the reference libraries of Barnard College, the College of Physicians and Surgeons, and the College of Pharmacy, are all available to officers and students of the

University. Nearly all the restricted libraries of the city, such as those of the learned societies, are open to officers and to advanced students introduced by the Librarian of the University.

By the courtesy of the Trustees of Union Theological Seminary, the reading room of that institution is open to students of the University.

Catalogues. The general catalogue of the Library is a record of all books, with the exception of the special collections in law and medicine, in the possession of the University. In addition to this there are catalogues of department libraries located in department reading rooms and a union catalogue which is a record of books which may be found in the Library of Congress, Harvard University, and other libraries.

Use of the Library. All officers, students, and graduates of the University have free access to the Library and may draw books for home use.

Persons of mature years desiring to engage in definite research which cannot be successfully conducted in the public or other libraries of this city will be given the privilege of using this library in the building, upon filing a satisfactory application, responsibly indorsed. Blank applications will be furnished by the Librarian on request.

During the Winter, Spring, and Summer Sessions of the University the Library is open each week day from 8:30 a. m. until 10 p. m.; on Sundays and holidays (except Labor Day, Christmas, New Year's Day, and Independence Day) from 2 to 6 p. m., and at other times on week days, from 8:30 a. m. to 6 p. m.

PUBLIC LIBRARIES

Students may use any of the public libraries of Greater New York. The central library building of the New York Public Library, at Fifth Avenue and 42d Street, houses one of the great reference libraries of the country, containing nearly 2,000,000 volumes and including much material not found in the University Library. Books in the reference department of that library may be used only within the building. Because of crowded conditions students are expected to do their work in the University libraries. However, if material needed by a graduate student is not in the University Library, he should take a card from the office of the Librarian of the University to the Public Library. Books in the central circulation branch (42d Street entrance) and in other branches may be borrowed for home use by students who obtain a Public Library card. A sub-branch of the Public Library is maintained in Room 108A of the Columbia University Library. Other branches in the vicinity of the University are: 115th Street, near Seventh Avenue; 100th Street, near Amsterdam Avenue, and George Bruce Branch, 518 West 125th Street.

UNIVERSITY BOOKSTORE

The official University Bookstore is situated in the Journalism building, with entrances at the southeast corner of 116th Street and Broadway, and from South Quadrangle between Furnald Hall and Journalism. Books and other supplies are sold at discounts from the usual prices. The store is open on week days from 8:30 a. m. to 8:30 p. m.; Saturdays, 8:30 a. m. to 6 p. m.; during the first days of each session, until 10 p. m. The store maintains a theater and concert ticket service, a travel bureau, a telegraph agency, and other services, with substantial savings to Columbia students.

THE GYMNASIUM

In the Gymnasium of Columbia College the main exercising room is semicircular in shape, and has a floor area of 16,000 square feet. The ceiling is 35 feet high, and the room is well lighted and well ventilated. The running track is 11 feet wide, with ends raised, and it measures 10 laps to the mile. On the same floor as the running track are the Gymnasium and Director's offices; rooms for fencing, boxing, and handball; two large dressing rooms with 3,000 steel lockers, and 32 shower baths. On the floor above is an auxiliary gymnasium 80 x 100 feet and below the exercising room is the swimming pool, semicircular in shape measuring 100 x 50 feet on its axis, and containing 260,000 gallons of water which is filtered and sterilized daily. The depth is from 4 to 10 feet. Around the pool are shower and needle baths and lavatories, and on this floor are also two dressing rooms equipped with shower baths and lavatories, for the use of the various athletic teams.

The athletic field is equipped with a 1/5-mile running track and within the oval is space for basket ball, volley ball, modified football, baseball, and soccer, as well as for a variety of track and field activities; while in the area outside the track is space for tennis courts and other recreative activities. Adjoining the field is a dressing room with 1,000 lockers and shower baths.

The University Gymnasium is open daily during the academic year, except on Sundays and legal holidays, from 9 a. m. to 7 p. m. on Tuesdays, Fridays, and Saturdays, and from 9 a. m. to 10 p. m. on Mondays, Wednesdays, and Thursdays. On all holidays it is open from 3 to 6 p. m. One or more of the instructors are on duty at all times when the Gymnasium is open.

A course in physical education is required of all freshmen and sophomores in Columbia College. A physical and medical examination by the Medical Officer of the University is required of each student before admission to these classes and of all other students taking part in athletics. On the basis of this examination, entering students are classified as to physical fitness and reports on their condition are sent to the Director of the Gymnasium who assigns them to activities adapted to their needs. Students suffering from disabilities sufficient to render participation in the regular physical education program hazardous or unprofitable are assigned to a restricted exercise group in which individual prescriptions of exercise and closer supervision are possible.

Barnard Hall, the gift of Jacob H. Schiff to Barnard College, was opened in September, 1917. This building provides three gymnasium floors (one 102 x 85 feet), and two smaller rooms, a swimming pool 60 x 30 feet with a depth of 4 to 8 feet, lockers and dressing rooms, rest rooms, and departmental offices.

The Frederick Ferris Thompson Memorial Building, which houses the Department of Physical Education of Teachers College, was given by Mrs. F. F. Thompson. It is a building of four stories, containing offices, examination rooms, lecture and classrooms, laboratories, handball courts, a swimming pool, four gymnasiums, rooms for corrective exercises, dressing rooms, shower baths, and a suite of rooms for photographic purposes. This building provides facilities for men and women students of Teachers College and the pupils of Horace Mann School, and the varied equipment for the theoretical and practical instruction of professional students in physical education.

GENERAL STATEMENT

The Director of University Admissions administers the entrance requirements for all departments of the University. Certain formal tests are required for admission to the Schools of Dental and Oral Surgery, Law, Medicine, and Journalism. Each of these professional schools demands previous college residence as a basis of admission. Candidates for admission to these schools should present their credentials from the college of previous residence. Admission to the first year course in Columbia College, Barnard College, St. Stephen's College, Seth Low Junior College, and the College of Pharmacy (University course for B.S. in Phar.), presupposes adequate secondary school training guaranteed by satisfactory records or entrance examinations or both, but a satisfactory showing in examinations and in school preparation is not in itself sufficient to guarantee admission, which depends also upon the candidate's character, personality, health, and promise of future usefulness. The passing of a psychological examination may be substituted for other written examinations provided the candidate's record is accepted as satisfactory in all particulars.

Information regarding admission by transfer to the undergraduate schools will be found in the sections of the catalogue describing those schools.

Applications for Admission. Applications for admission should be filed not later than June 1 of the year when the candidate plans to enter. Applications for admission to Columbia College and to the School of Law should be filed before April 15 if possible.

EXAMINATIONS AND RECORDS

The University issues annually a pamphlet entitled Bulletin of Entrance Examinations and Admissions. This pamphlet gives detailed information upon the following matters:

The schedules for the entrance examinations of the College Entrance Examination Board and of Columbia University.

The dates for filing of applications. (Given also in the Academic Calendar at the end of this volume.)

Method of obtaining, filling out, and filing application blanks and school records.

Admission to advanced standing.

Fees for examinations and method of payment.

Definition of the requirements in the several subjects.

The award and duration of credits toward admission as a result of examinations, and information as to the conditions under which examinations may be divided among two or more series.

The specific conditions of admission to each school requiring entrance examinations.

This pamphlet may be had without charge upon application to the Secretary of Columbia University. Any person who intends to take examinations himself or to prepare others for them should obtain a copy of it and familiarize himself with its contents. *The information which follows here is merely a brief summary of that given fully and officially in the Bulletin.*

METHODS OF ADMISSION

The minimum age for admission to the freshman class in Columbia College is 16; in Barnard College, 15. For students entering from secondary schools, an estimate of character and personality, and a certificate of health must be presented, and in the case of students from other colleges, an honorable dismissal.

Admission to Barnard College and to Columbia College (but not to Seth Low Junior College) in February has been discontinued. There are two methods of admission:

I. The new method, employing the psychological examination.

Candidates who have graduated with good grades from an acceptable secondary school and have completed an acceptable course of study, on submitting satisfactory records of school work, health, character, and promise, receive permission to substitute a psychological examination for the entrance examinations required by the old method. The course of study must have included the prescribed entrance subjects and must have been concerned primarily with language, science, mathematics, and history.

II. The old method, by entrance examinations.

Students entering by the old method are required to take the psychological examination for purposes of record.

Plan A. The student may satisfy the requirements in the subjects required for admission by passing entrance examinations covering 15 entrance units. In passing upon the results of the examinations in the several subjects, the candidate's school record is taken into account.

Plan B. On this plan a candidate whose school record has been approved may receive permission to satisfy the examination requirements by comprehensive examinations in not less than four subjects approved by the committee on admission. The comprehensive examinations in question must be those prepared by the College Entrance Examination Board or by Columbia University.

In passing upon the result of these examinations the detailed school record of the candidate is taken into account and given great weight.

The examination requirements for admission under the old plan may be satisfied by any one of the three following means, or by any approved combination thereof; the examination grades are interpreted in the light of the record which the student has made in the school. The record for each subject must be filed with the Director of Admissions.

1. The examinations of the College Entrance Examination Board held at Columbia University and at about 150 other educational centers in the United States and elsewhere.
2. The examinations conducted at Columbia University by the Committee on University Admissions.
3. The examinations of the Education Department of the State of New York in so far as their subject matter specifically corresponds to the stated requirements of the several undergraduate schools. These examinations are held in January and June at more than six hundred high schools and other institutions in the state, but are ordinarily open only to students in those schools. A grade of at least 75 per cent will ordinarily be required in these examinations.

CREDITS

A candidate may present himself at any of the series of examinations scheduled above, but at not more than four in all, and the results may be credited toward entrance, subject to the following restrictions:

The results of an examination may stand to the candidate's credit twenty-nine months, but no longer. The reports of the candidate's examinations and the school's statement of preparation must be in the hands of the Director of University Admissions six weeks prior to the opening of the term in September.

SUBJECTS FOR EXAMINATION

Columbia University recognizes the following examination subjects which may be offered for admission to one or more of the colleges and schools included in the University, each subject counting for a specific number of units as indicated.

The units here represent the number of years, at the rate of five periods per week, which will normally be required in the secondary school to prepare adequately for the college examination. Each unit should represent approximately one quarter of a full-term program for a year in a secondary school.

Columbia College, the oldest part of the University and in a sense the mother of the rest, offers a program of studies leading to the degree of Bachelor of Arts.

Entrance. For the details of admission to the freshman class, see pages 145 et seq.

Advanced Standing. A candidate for admission to advanced standing upon basis of work done at another college, should obtain and file not later than August 1 or January 1, preceding the session in which he desires to enter, the appropriate application blank, with a transcript of his academic record, and a marked catalogue of the institution that he leaves.

Appropriate credits up to a maximum of 18 points of the 124 required may under certain circumstances be made by students who have passed entrance examinations over and above the minimum entrance requirement of 15 units.

Special Courses. Students of serious purpose who are in a position to fulfill the requirements for admission to the freshman class, or who have had a valuable educative experience in practical life, may be admitted as non-matriculated students to pursue courses without reference to any degree. For details see the current Announcement of Columbia College.

Registration and Fees. For information with regard to registration and fees, see Index.

Scholarships. For information with regard to scholarships, prizes, and medals, see Index.

Program of Studies. The period within which the requirements for the degree of A.B. may be satisfied varies with the capability and industry of the individual student. In most cases four years are spent in making the required number of points; students of ability and industry frequently complete the course in less time, especially if advantage be taken of courses in the Summer Session, or additional credit be gained by high standing; no student may spend more than six years as a candidate for the degree.

General Regulations. The requirement for graduation is 124 points, the term "point" signifying the satisfactory completion of work requiring attendance each half-year of one hour weekly in lectures, recitation, or honors conference, or a correspondingly longer period in laboratory or drafting room.

Admission to courses depends strictly upon completion with the grade of C or better of the stated prerequisites.

A student in good standing is permitted upon joint approval of the Dean and of the department concerned to elect approved graduate courses which his previous training will enable him to pursue with profit.

To be recommended for a degree, a student must have made at least 84 points in actual college residence, and of these at least 24 in Columbia College. (Supplementary details are given in the current Announcement of Columbia College.)

In the administration of the College regulations, it is the policy of the Committee on Instruction and of the Dean to be guided in the treatment of individual cases largely by the recommendation of the adviser, and by the general attitude of the student in question toward the College, *i.e.,* whether or not he has proved himself a creditable member of the college community, as shown by regularity in attendance, promptness in the fulfillment of his obligations, earnestness in his endeavor to profit by his college opportunities, both direct and indirect, and by consideration of others.

REQUIREMENTS FOR THE DEGREE

To satisfy the requirements for the degree of Bachelor of Arts, each candidate must pass 124 points of work including 60 which bear maturity credit. The term "point" signifies the satisfactory completion of work requiring attendance for one session of one hour weekly in lectures, recitations, or honors conference, or a correspondingly longer period in laboratory, lecture course, or drafting room. The term "maturity credit" signifies the credit allotted to advanced courses, and the purpose of the requirement is to encourage sequential work in the course of study.

Unless the equivalent of the requirement has been satisfied by passing an achievement test, the following courses are prescribed for candidates for the degree:

(a) *English A* and *C; Contemporary Civilization A* and *B; Physical Education A* and *B.*

(b) One full year course from each of any two of the following groups:

I. Mathematics.
II. Chemistry; physics.
III. Astronomy; botany; geology; zoölogy.

(c) 1. One year of college work in French or German beyond course *B,* or
2. *Greek 11–12* or *Latin 11–12,* and in addition *French B* or *German B,* or
3. The equivalent of the *B* requirement in two of the following languages, one of which must be French or German; French, German, Greek, Italian, Latin, Spanish, for which another language may be substituted on authorization by the Committee on Instruction, or
4. Completion of the stated entrance requirement for the Schools of Medicine or Dentistry followed by the exercise of professional option with such school.

(d) Attendance at Orientation Lectures for freshmen given weekly during the first Winter Session.

ACHIEVEMENT TESTS

Under the regulations for the A.B. degree, a student who has anticipated the subject matter of any of the preceding prescriptions or of any other college courses may make application to take an achievement test. If the result of this test indicates sufficient mastery of the subject the prescription will be waived and the student may go forward immediately to more advanced work in the subject. Passing the achievement test will not give point credit toward the degree.

PLACEMENT EXAMINATIONS

All freshmen are required to take placement examinations in English, modern languages, mathematics, and physical education. These examinations are required in order that failures due to misplacement in courses may be avoided if possible. The type of examination used is designed to test the readiness with which the student can adapt his knowledge to the requirements of college work. The results of these examinations will determine a student's placement in courses and in sections. In modern languages a separate aural test will be given for placement in oral courses.

Where it is necessary to place a student in a course which forms a technical duplication of entrance credit, credit toward the A.B. degree will not be allowed unless the student passes the course in which he is placed with a college grade of B or better.

ADMISSION TO THE PROFESSIONAL SCHOOLS

Upon receiving 64 points in Columbia College, a student may take studies in the first year of the following professional schools of the University, provided he can satisfy the stated requirements for admission thereto, and may receive a Bachelor's degree on recommendation of the professional school of his choice upon the satisfactory completion of two years' work in that school.

School of Business
School of Engineering

Combined Courses. Upon receiving 94 points, 64[1] of which must be for work in Columbia College, including all of the work prescribed for the degree in Columbia College, a student may take studies in the first year of any one of the following professional schools of the University, provided he can satisfy the stated requirements for admission thereto, and will receive the degree of Bachelor of Arts from Columbia College upon the satisfactory completion of the year's work:

School of Architecture
School of Business
School of Dentistry or other approved dental school
School of Engineering
School of Journalism
School of Law
School of Medicine or other approved medical school
Union Theological Seminary

Students exercising professional option must have at least 20 maturity credits before entering the professional school, the completion of the first year of which will satisfy the maturity credit requirement for the degree.

No course may be counted toward a professional degree and at the same time be included among those which go to make up the 94 points referred to above.

Students who intend to study for holy orders are permitted, with the approval of the Committee on Instruction, to offer toward the Bachelor's degree certain courses given at the General Theological Seminary.

Miscellaneous. All students admitted with conditions are assigned for advice to the Committee on Admissions until such time as their entrance deficiencies are removed. Special advisers are designated for students looking forward to law, medicine, engineering, business, journalism, dentistry, theology, and to the non pre-professional group, respectively.

---

[1] In exceptional cases, students of high scholarship who have completed two years of college work elsewhere may satisfy the residence requirement by the completion in Columbia College of 34 points, with an average of B. Work done in the Summer Session or University Extension may not be included in these 34 points.

The student's performance in a course is reported according to the following grades: A, excellent; B, good; C, fair; F, failure. The designation MU is used to indicate that the student is permitted to take a second final examination.

The grade of A in six points of college work completed in any session of the academic year entitles a student who has not fallen below the mark B to one point of extra credit.

Matriculated students whose record as to entrance conditions and the completion of prescribed courses is satisfactory to the Committee on Instruction are classified as follows:

Freshmen, those who have less than 26 points
Sophomores, those who have completed 26 points
Juniors, those who have completed 58 points
Seniors, those who have completed 88 points

UNIVERSITY UNDERGRADUATES

In the interest of mature students the University adopted in October, 1920, a plan whereby the work of the University in its several divisions is made more fully accessible to properly qualified students who may be candidates for a Bachelor's degree, but whose needs are not fully met by the provisions of the undergraduate colleges. Such students are designated University Undergraduates, as distinguished from College undergraduates and from graduate students. They must comply fully with the requirements for admission for Columbia College (or in the case of women, for Barnard College). Evidences of maturity may be the age of twenty-one years or more, the satisfactory completion of two or more years of college work elsewhere, special proficiency in some study, etc. They may, with permission, take work in Columbia College, and with certain restrictions, in the Summer Session and in University Extension. Provided they are entitled to senior standing, they may take certain courses offered by the Faculties of Political Science, Philosophy, and Pure Science. On completing the requirements provided for such students, they will be granted the degree of Bachelor of Science in General Studies on the recommendation of the University Council.

Announcement of Columbia College. The following additional matters are dealt with in the current Announcement of Columbia College, which may be had upon application to the Secretary of the University: description of Hamilton, Hartley and John Jay Halls; advice as to choice of studies; regulations governing absences; statement of courses which may be taken by the College students with their prerequisites; personal relations of students; system of examinations; records and reports; schemes of attendance and recommended programs for students having particular ends in view; scholarships and prizes.

SCHOOL OF LAW

FACULTY

President Butler.
Dean Smith.

Professors Berle, Bonbright, Chamberlain, Cheatham, Deák, Dowling, Gifford (*Secretary*), Goebel, Hale, Hamilton, Handler, Hanna, Hyde, Jacobs, Jessup, Jervey, Llewellyn, Magill, Medina, Michael, Moley, Parkinson, Patterson (E. W.), Powell, Schiller, Tulin.

Delegates to the University Council (see page 9).

PURPOSE

The School of Law, which was established in 1858, aims to afford a thorough, practical, and scientific education in the principles of: the common and statute law of the United States; the English and American system of equity jurisdiction; the public law of the United States and Europe; the Roman law, ancient and modern; theoretical and comparative jurisprudence.

ADMISSION

All applicants for admission, except candidates for graduate degrees and in some cases applicants for admission with advanced standing will be required to take a capacity test. Only those applicants will be admitted who on the basis of their college records, their scores made on the capacity test, and other available pertinent data, give promise of doing thoroughly satisfactory work.

DEGREES

The Law School offers three degrees: the LL.B., the LL.M., and the J.D. The curriculum leading to the degree of Bachelor of Laws covers a period of three academic years. The work of the first year is prescribed and includes, in addition to the usual first year courses, a course in the development of legal institutions and a course in legislation. In addition to the foregoing courses, first year students are given certain prescribed readings in the broader aspects of law and allied subjects and must pass a satisfactory examination thereon.

The studies of the second and third years are elective but each student must register for courses amounting to not more than fourteen nor less than twelve class hours per week. During the second and third years, each student must submit at least one original essay in connection with a course for which he is registered, such essay to count as one point toward the requirements for the LL.B. degree. Second and third year students of high standing are admitted to graduate courses subject to the approval of the instructor in charge.

No student is permitted to remain in the School unless he maintains a satisfactory average at the end of each year.

Candidates for the LL.M. degree must have successfully completed three years of study in an approved law school, have obtained a first degree in law, and have fulfilled certain other preliminary academic requirements. They must successfully complete the equivalent of one year's work in the Law School and their programs are subject to the approval of the Committee on Graduate Instruction.

Candidates for the J.D. degree must present convincing evidence of their ability and educational training to do original research in Anglo-American law. They must have successfully completed with high rank three years of study in an approved law school and have obtained a first degree in law. Graduates of law schools not situated in the United States or in the British Empire will ordinarily not be admitted to candidacy for the J.D.

degree unless they have completed with high rank at least one year's work in an approved American law school. Candidates for the J.D. degree must be in residence for at least one academic year and must also submit a printed dissertation showing the results of their study and investigation.

In general, degrees will not be awarded unless the preliminary qualifications of the student are approved by the Director of University Admissions and the student is matriculated as a candidate for the degree. A period of regular attendance on all stated academic exercises amounting to at least one academic year must be completed by every candidate for a degree. Those interested in further details as to the requirements for admission and for the various degrees should consult the Announcement of the Law School.

Historical. King's College—the original foundation of Columbia University—organized a Medical Faculty in 1767, and was the first institution in the North American Colonies to confer the degree of Doctor of Medicine in course. The first individuals to graduate in medicine from the College were Robert Tucker and Samuel Kissam, who received the degree of Bachelor of Medicine in May, 1769, and that of Doctor of Medicine in May, 1770, and May, 1771, respectively. Instruction in medicine was given from this time on until the work of the College was broken up by the War of the Revolution. In 1784 an act was passed making Columbia College in the City of New York the successor of King's College, and instruction was resumed in the academic department. Eight years later the Medical Faculty was reëstablished, and was continued until 1813, when the Medical Faculty of Columbia College was merged in the College of Physicians and Surgeons, which had received an independent charter in 1807. In 1860, by agreement between the Trustees of the two institutions, the College of Physicians and Surgeons became the medical department of Columbia College, and from that time on the diplomas of the graduates were signed by the President of Columbia College as well as by the President of the College of Physicians and Surgeons. The connection was only a nominal one, however, until 1891, when the College was definitely merged in the University.

Location and Equipment. The College of Physicians and Surgeons was first situated at 18 Robinson Street, from 1807 to 1809. From 1809 to 1813 it was at 12 Magazine Street; from 1813 to 1837 at 3 Barclay Street; from 1837 to 1856 at 67 Crosby Street; and from 1856 to 1887 at 101 East 23d Street. From 1888 until 1928 it occupied a group of buildings which stand upon land, bounded on the south, west, and north by West 59th Street, Amsterdam Avenue, and West 60th Street, respectively. In 1928 it was moved to its present quarters at 630 West 168th Street.

The Columbia-Presbyterian Medical Center. After a number of years of close coöperation the Presbyterian Hospital and Columbia University formally agreed in 1919 to construct buildings which should be in close geographical and functional relationship. The hospital only appoints to its professional staff those nominated by the University and opens its wards and out-patient department to the students of the College of Physicians and Surgeons. The University transferred to the Presbyterian Hospital the endowment funds of the Sloane Hospital and Vanderbilt Clinic and makes certain annual payments for maintenance. The new buildings were completed in 1928 and are situated on a plot of ground owned jointly by the two institutions lying between 165th and 168th Streets on Broadway to a line 200 feet to the east of Riverside Drive. More recently the Neurological Institute and Babies' Hospital were completed and occupied new buildings on the same plot, land having been deeded to them by the original institutions. The state of New York has recently completed on the same plot a two-hundred-bed Psychiatric Institute and Hospital whose facilities shall always be open to the students and staff of the College of Physicians and Surgeons.

Presbyterian Hospital. Under the terms of the affiliation with Columbia University, staff members of the hospital are appointed by the Board of Managers on nomination by the Trustees of the University, and every member of the hospital staff is a member of the staff of the Medical School. The hospital occupies a twenty-two story building. In this are the wards of the medical and surgical services, the Sloane Hospital for Women, and the Squier Urological Clinic. The Harkness Pavilion has 147 private rooms, besides 30 beds on the staff infirmary floor and 10 guest rooms.

Vanderbilt Clinic. Vanderbilt Clinic in addition to continuing its former function as a dispensary for the ambulant sick, is now the out-patient department of all the affiliated hospitals of the group. The staff of the clinic is made up entirely of members of the teaching staff of the Medical School. The clinic now averages 1400 visits a day of which 175 are new patients.

Sloane Hospital. Sloane Hospital for Women occupies three floors of the main hospital building and shares in the private pavilion. It provides a generous supply of clinical material for both obstetrics and gynecology. In recent years the hospital has averaged 1800 deliveries each year.

Squier Urological Clinic. Squier Urological Clinic occupies the entire eighth floor of the new hospital buildings. It is comprised of wards of 12, 5, and 4 beds, and contains a large number of single rooms for surgical cases in urology. The clinic is under the direction of the Department of Urology, the Executive Officer of the Department being the director of the clinic.

New York State Psychiatric Institute and Hospital. The state of New York maintains a two-hundred-bed Psychiatric Hospital with provisions for the study and treatment of all types of psychiatric disorders. This offers very unusual facilities to the students and staff of the College of Physicians and Surgeons for experience in this important branch of medicine.

Babies' Hospital. Babies' Hospital provides for general medical and surgical care of infants and children up to twelve years, and coöperates with other departments for the treatment of this age group according to the particular specialty, in medicine or surgery, involved.

Neurological Institute. The Neurological Institute of New York is one of 213 beds in wards and private rooms, and is devoted exclusively to the treatment of diseases of the nervous system. Facilities are provided for bedside teaching in the wards for both undergraduates and graduate students.

Institute of Ophthalmology of Presbyterian Hospital. An important addition to the Medical Center, made possible by the generosity of Mr. Edward S. Harkness, is the Institute of Ophthalmology of Presbyterian Hospital, which is now being built on the southwest corner of the plot. The new hospital and laboratories for the study of diseases of the eye will help fill a great need in the training of physicians and nurses in this important field.

Library. The new buildings contain a much greater space for the libraries of the College of Physicians and Surgeons which have all been merged into one. It contains 56,000 volumes, and about 30,000 pamphlets. There is stack-room space for about 100,000 volumes. The library is open on week days from 9 a. m. to 10 p. m.

Crocker Laboratories. The Crocker Laboratories were established by a legacy in 1911 from the late Mr. George Crocker for the purpose of conducting investigations on the subject of cancer. The laboratories are situated at 1145 Amsterdam Avenue on the northeast corner of 116th Street. The building is a three-story and basement, fireproof structure of brick and concrete, erected by the Trustees of the University to afford greater facilities for the workers in the Fund than could be obtained in the former buildings of the College of Physicians and Surgeons.

The object of the Fund is the promotion of research in the diagnosis, cure, and cause of cancer. Voluntary workers who have had suitable preparation in pathological histology and pathology are welcome and will be given sufficient instruction to enable them to pursue, in a satisfactory manner, some phase of cancer research. Formal courses in pathological technique and tumor biology also will be offered by the staff.

The investigations in cancer are carried on by the Institute of Cancer Research, founded 1921. The Institute also receives support from L. A. Van Praag Fund, established in 1915, and the Emil C. Bondy Fund, established in 1916.

The De Lamar Institute of Public Health. The primary function of the De Lamar Institute of Public Health is to contribute to the education of physicians and to train personnel for the various professional careers in sanitary science. Its teaching staff participates also in the training of nurses qualifying for a public health career in the required courses at Teachers College, and in the education of teachers and executives of health agencies through the medium of University Extension and Summer Session courses.

It offers instruction in epidemiology, industrial hygiene (with its two divisions of physiology and medical practice) public health administration and sanitary science.

Other subjects usually included in the curricula of schools of public health and hygiene are adequately provided for within existing University departments; sociology and vital statistics, bacteriology, immunology, physiology, protozoölogy; and parasitology is arranged for in the Institute of Tropical Medicine.

Hospital Clinics. The College is also represented on the staffs of many of the other general and special hospitals of New York. In them, either required or optional practical instruction is given by clinical lectures, in the operating room, in the dispensaries and at the bedside. These hospitals are as follows: Bellevue, City, Lincoln, Montefiore, Mount Sinai, New York, New York Orthopedic, Nursery and Child's, St. Luke's, St. Mary's Hospital for Children, and Willard Parker Scarlet Fever and Reception Hospital. For a detailed statement, see the current Announcement of the College of Physicians and Surgeons.

Postgraduate Instruction. Courses are open to graduates in medicine in practically all the departments. Further information regarding these courses is provided in the departmental statements and special bulletins. The Medical School is affiliated with a number of hospitals in New York City in which special courses in different subjects are given. It has also become affiliated with the New York Post-Graduate Medical School and Hospital and a number of provisions for postgraduate training have been made through this affiliation.

Residence Hall. Bard Hall, the gift of Mr. Edward S. Harkness, is situated on Haven Avenue at West 169th Street, about three blocks from the College. It contains 235 rooms for students and ten suites for instructors. The facilities of the Hall include large lounging rooms, dining room, cafeteria, and grill rooms, gymnasium, squash courts, and swimming pool.

Summer Session (July 5–August 12, 1932). Courses in the Summer Session are open to all properly qualified students. They will not count toward the degree of Doctor of Medicine, for those who are students at the College of Physicians and Surgeons, or those who, being eligible for admission to advanced standing, have not had in their previous course of study any of the subjects offered. Courses in the Summer Session cannot be accepted from students prior to matriculation in the College of Physicians and Surgeons to fulfill omissions in their work. Such courses cannot be offered to supply deficiencies caused by failures of required courses in other medical schools. Such courses cannot be offered to anticipate work required from students of equal rank. The following courses offered in Summer Session are similar to but not equivalent either to courses required or elective in the Winter and Spring Sessions: bacteriology, Dr. C. B. COULTER and instructor; morphology and biology of tumors, Professor W. H. WOGLOM; clinical pathology, Dr. D. S. D. JESSUP and assistants; histology, Dr. C. M. GOSS. For full particulars and an Announcement of the Summer Session apply to the Secretary of Columbia University.

Requirements for Graduation. In addition to complying with the requirements for admission and to completing the required work of the curriculum, each candidate for the degree of M.D. must present satisfactory evidence, as required by law, of good moral character, and of having attained the age of twenty-one years. If the candidate shall have been admitted to advanced standing, he must have spent not less than four academic years (no two of which shall have begun during the same calendar year) in an approved medical college in the study of the subjects making up the curriculum of the School of Medicine.

Students who elect the combined course of seven years in Columbia University will receive the degree of A.B. from Columbia College upon the completion of the first year of the medical course.

Fellowships, Scholarships, and Prizes. See Index.

COMMITTEE ON INSTRUCTION

The Dean (*Chairman*), Professors Harrington, Jackson, Lovell, Lucke, Rautenstrauch, Read, Severinghaus, and Slichter.

Delegates to the University Council (see page 9).

Columbia University offers a most carefully developed curriculum in each of the major branches of engineering. At the same time the program of study has the flexibility, without sacrifice to unity, that is necessary to meet the differing needs of students, and to respond to the fact that the call for young engineers is not limited to those whose formal education has been of a single standardized type. These programs of studies are founded upon the basic four-year Bachelor of Science degree requirements, in fulfillment of which two years are spent in Columbia College and two years in the School of Engineering. The work of the first two years is concerned with certain studies pertaining to a general education, but more particularly with laying the scientific foundations in mathematics, physics, and chemistry on which the strictly technical or engineering studies of the following years are based. Also there is in the first year an orientation course, "Introduction to Engineering," and in the second year an introductory course on "Power." These are designed to orient the student with respect to the various fields of engineering before he undertakes the studies in his chosen branch in the professional School of Engineering.

The division point at the end of two years between preparatory general and scientific studies on the one hand and the strictly technical studies of the following years on the other hand is so clearly marked that students who desire to study engineering at Columbia may secure in most good colleges a training that will prepare for admission to the third year of the Columbia University course, or the first year of the School of Engineering. A student who wishes to do this should give careful attention to the Announcement of the School of Engineering and, by correspondence with the Director of University Admissions, Columbia University, obtain advice concerning the arrangement of his work so that he may secure in his own college the substantial equivalent of the two pre-engineering years in Columbia College.

There is increasing appreciation of the value to engineers of a broader education in the so-called humanities—subjects such as economics, history, philosophy, languages and literature, psychology, fine arts—than is necessary or possible in the standard four-year engineering curriculum. Students who wish to extend their education in these directions may, if suitably qualified, take three years in college as candidates for the Bachelor of Arts degree and in these three years complete not only the scientific preparation for the engineering school, but have the equivalent of an additional year's training in subjects of a general and liberal education. For such a student, under the professional option plan, the first year's work in the engineering school is accepted as the fourth year of the Bachelor of Arts course, so that he receives the Bachelor of Arts degree upon satisfactory completion of his first year in the engineering school. This three year pre-engineering course may be taken by the student who, while having altogether a sufficient number of entrance credits, does not have some of the mathematics or science credits prescribed for entrance to Columbia College for those who take the two year pre-engineering course. This period of two or three years in the common undergraduate college of the University is of great importance in securing a well-rounded educational experience for the engineering students since in these years they are in intimate contact with and an integral part of the general undergraduate body, with its social, athletic, and other campus activities.

Whether the student comes into the School of Engineering after two years of pre-engineering work in Columbia College, after three years of it, or by transfer from another institution, he proceeds with two years of study in his chosen branch of engineering to the Bachelor of Science degree.

For students especially qualified for advanced work the School of Engineering also provides an additional year of graduate work in purely professional subjects in the chosen field of specialization, with emphasis on research methods. The successful completion of this third year of engineering study is marked by the award of the professional engineering degree, Engineer of Mines, Metallurgical Engineer, Civil Engineer, Electrical Engineer, Mechanical Engineer, Chemical Engineer, or Master of Science (in Industrial Engineering or in Mineral Dressing).

The degree of Master of Science under the Faculty of Engineering is granted for individual curricula of not less than thirty points, the major to be in general, in the field in which the candidate holds the B.S. or equivalent degree, subject to the approval of the head of the department of major interest, the Dean, and the Committee on Instruction.

The doctorate, however, is under the Faculty of Pure Science, in which there is a large representation of professors of engineering. Information concerning the requirements for the Doctor of Philosophy degree may be obtained from the Graduate Announcement and by consultation with the department of major interest.

Admission to Professional Part of Course. Proper preparation for undertaking the work of the first year in the School of Engineering requires that the student shall have had in his college or engineering school course the substantial equivalent of the following:

1. English, history, economics, and philosophy or acceptable substitutes, 22 semester hours.
2. Mathematics: advanced algebra, analytical geometry, differential and integral calculus, 12 semester hours.
3. Chemistry: one year of general inorganic chemistry, presupposing high school or entrance chemistry, 14 semester hours, followed for students intending to study metallurgical engineering or mineral dressing by at least 8 semester hours of qualitative analysis.
4. Physics: one year of general physics, presupposing high school or entrance physics, 13 semester hours: including mechanics, sound, 5 semester hours; electricity and optics, 5 semester hours; combined laboratory, 3 semester hours.
5. Mechanical drawing and descriptive geometry, 12 semester hours.
6. For students intending to study civil and mining engineering, surveying; for all students, except those intending to study metallurgical engineering or mineral dressing, a course in power, 3 semester hours.

A good preparation for admission to the School of Engineering may be obtained in most of the better colleges of the country by a proper choice of electives. The college student wishing to fulfill the admission requirements should apply without fail to the Secretary of the University to be put in touch with the Committee on Admissions for advice regarding the proper courses to elect at his college to satisfy our admission requirements. The complete Announcement of the School of Engineering may be obtained upon request to the Secretary of the University and should be consulted for details of the various curricula.

Preparatory Courses in Columbia College. The attention of students who wish to pursue a course in the School of Engineering is directed to the course in Columbia College, especially arranged for study preparatory to the work in engineering. See the current Announcement of Columbia College.

CHEMICAL ENGINEER

The courses of instruction leading to the degrees of Bachelor of Science and Chemical Engineer are laid out with the purpose of training men to develop and direct those industries and manufacturing operations and processes which are based on the application of chemistry. This requires a broad knowledge of engineering, in addition to a thorough training in chemistry. Hence much attention is given to fundamental courses under the Departments of Mechanical, Electrical, and Civil Engineering. It is sought to advance the student's knowledge of analytical, physical and organic chemistry, and the physical problems entailed in carrying out chemical reactions on a large scale. Due emphasis is also given to the design, inspection and management of factories.

Considerable time is devoted to actual manufacture on a semi-factory scale, with full reports on details of costs and yield as related to types of processes and equipment. The final thesis work in the third year involves library study, laboratory research and engineering application.

The Bachelor of Science degree is awarded upon the completion of the first two years of the professional curriculum not including the summer work of the second year, and the degree of Chemical Engineer at the end of the third year.

CIVIL ENGINEER

The course of instruction which leads to the degrees of Bachelor of Science and Civil Engineer treats of those subjects of a technological and economic character which together formulate and give expression to the principles which control the scientific design, construction, and operation of engineering works in one or more of the following fields of civil engineering:—

1. *Highway Engineering.* Dealing with problems in location and construction of roads and in highway finance; also with the design, construction, and maintenance of street pavements.
2. *Railroad Engineering.* Dealing with the economic problems of demand for and location of and the scientific principles which control the design, construction, maintenance, and operation of steam and electrically powered railways.
3. *Waterway Transportation.* Dealing with location, design, and operation of canals, including canal locks; also with river and harbor improvements.
4. *Structural Engineering.* Dealing with the analysis of stresses in, the strength of materials used in, and the design of bridges and buildings, dams, retaining walls, foundations, chimneys, stone masonry, and reinforced concrete arches.
5. *Hydraulic Engineering.* Dealing with public water supplies and water power developments and flood control, including the study of "run-off" and flood flow and the design of dams, aqueducts, distributing systems, and power developments.
6. *Sanitary Engineering.* Dealing with methods for the purification of water and the design and construction of sewers, the treatment of sewage, collection and disposal of municipal waste, and snow removal from city streets.

The subjects offered in the course of instruction are so chosen and treated as to accomplish broad educational training in each of the above-mentioned fields. A complete sequence of subjects in mechanical and electrical engineering dealing respectively with the sources, development, and utilization of power are included also in the course which leads to the degree of Civil Engineer. Instruction and practice in field surveying are given at Camp Columbia near Litchfield, Connecticut, during a period of about ten weeks each summer.

The Bachelor of Science degree is awarded upon completion of the first and second years of the professional curriculum, not including the summer work between the first and second years, and the degree of Civil Engineer at the end of the third year.

ELECTRICAL ENGINEER

The program for the three years of professional study in electrical engineering is based upon a definite plan of commencing in the first year with a broad training in the most important subjects of all branches of engineering, notably, chemical engineering, metallurgy, mechanical and civil engineering, intended to give the student a true perspective of engineering as a whole and an engineering point of view.

In the second year, more specialized electrical engineering is introduced, and less of allied subjects, while finally in the third year, almost all of the student's time is devoted to his chosen specialty; with the privilege of electing courses amounting to one half of the year's work.

The courses are designed to teach the principles rather than the details. They may be divided into three general classes: theoretical, technical, and practical. The theoretical courses extend through the whole three years and are designed to give the student an insight into the applications of mathematics and physics to the fundamental principles of electrical phenomena. During the first two years many of these courses are given by the Department of Physics.

Closely in parallel with the theoretical courses are the technical courses which show the applications of the principles discussed in the theoretical courses. These are intended to familiarize the student with the terms, practices, instruments, and appliances of the profession. Problems are given which involve concrete applications of the principles learned.

The practical courses are those of the laboratory and the drafting room, and their context is closely coördinated in time and subject matter with the theoretical and technical courses, thus serving as illustrations and examples.

The Bachelor of Science degree is awarded upon the completion of the first two years of the professional curriculum not including the summer work of the second year, and the degree of Electrical Engineer at the end of the third year.

INDUSTRIAL ENGINEERING

Master of Science in Industrial Engineering

The very general need and growing demand for executives and managers of manufacturing and other industrial and commercial enterprises, who are instructed in both engineering and business principles and practices, has occasioned the institution of this course of studies.

The industrial engineering course of instruction is founded with the following objective: to give instruction in the scientific principles underlying a wide range of productive processes; to teach those business practices which proceed from the operations of enterprises and the marketing of products; and to make serious inquiry into those problems of labor and human relationships which arise in the coöperative efforts of mankind.

Through the united efforts of the School of Engineering and the School of Business it is possible to utilize a staff experienced in the technical, commercial, financial, and social aspects of industrial enterprises.

The continued prosperity of our basic industries, and therefore our economic welfare, will in a large measure be dependent upon the excellence of the processes of production. One of the most vital influences tending toward the maintenance of a foremost position in the world's market through the economic production of commodities is the spirit of scientific research in the industries. Accordingly it is the purpose of this instruction not only to deal with the principles and practices of manufacture and commerce, but also to stimulate the spirit of inquiry into the many technical, commercial, and social problems, the solution of which is so urgently needed.

The Bachelor of Science degree is awarded upon the completion of the first two years of the professional curriculum not including the summer work of the second year, and the Master of Science degree at the end of the third year.

MECHANICAL ENGINEER

Subjects leading to the degrees of Bachelor of Science and Mechanical Engineer are so arranged that in the first year of the three-year professional part of the course the students complete their training in the fundamental sciences of physics and chemistry, and enter into the study of engineering subjects proper through courses in engineering thermodynamics, physical metallurgy, machine elements, hydraulics and elementary electrical engineering. In the second year machine design, more advanced electrical engineering, methods of production, and the properties of materials entering into engineering products constitute the major portion of the work. At this point the degree of Bachelor of Science is awarded. The third year is mainly devoted to the study of the more important power generating systems such as reciprocating steam engines, internal combustion engines, steam turbines, water power machinery; the application of electrical machinery; and appropriate laboratory work in connection with each; in addition, business law, public utilities, and economics are undertaken. Upon the completion of this third year the degree of Mechanical Engineer is awarded.

Between the first and second years, summer work in machine design and power plant inspection, covering eight weeks is assigned; between the second and third years, twelve weeks are spent in shop practices and power plant analysis.

Throughout the course the aim is to develop clear conceptions of underlying principles, habits of independent thought, and orderly mental procedure applicable to any sort of mechanical engineering problems rather than to the memorization of isolated facts. The training given not only fits the student to take up the design of machinery and the perfection of processes of doing things by mechanical means, but also to take ultimately a leading place in the management of the manufacturing and transportation industries as engineer or executive.

METALLURGICAL ENGINEER

Metallurgy embraces the extraction of metals from ores, their refining, preparation for and use in the various industries.

The demand for young men in this line of work has never been greater, because this is the age of metals. The science of metallurgy is continually advancing, and if the young man is inclined toward research the field offers ample opportunity for intelligent effort which may be exceptionally remunerative.

The opportunity for studying metallurgical engineering at Columbia is unsurpassed, because of the excellent equipment and its location in one of the largest metallurgical centers, embracing all branches.

In metallurgical engineering the principles underlying the design, construction, and operation of plants for the extraction, refining, and preparation of metals for the industries are considered. The student is privileged to direct his attenion especially to pyrometallurgy (the extraction and treatment of metals by high temperature operation); to hydrometallurgy (extraction of metals by aqueous solutions), to hydro-electrometallurgy (including the extraction of metals by solution, and their subsequent electrolytic precipitation); and to electrolytic refining of metals.

In physical metallurgy recognition is taken of the distinctive progress in the science of metals. The need for new and improved alloys in the various branches of engineering has developed a demand for young men in rapidly increasing numbers. Physical metallurgy is based primarily on a knowledge of the relation between the constitution and structure of metals and alloys and their physical and chemical properties and uses in the arts. The finished product is more and more being controlled by the knowledge of this close relation between structure and treatment during the course of manufacture and fabrication.

The degree of Bachelor of Science marks the completion of the first two years of the professional course of study, and the degree of Metallurgical Engineer the third year.

MINERAL DRESSING

Master of Science in Mineral Dressing

The greatest advances that have been made in the mineral industry in the last quarter century have been the improvements in methods of ore dressing. The necessity for beneficiation of increasingly lower grade ores demands further intensive study and improvement. There is also much opportunity for progress in the separation and concentration of nonmetallic minerals. In recognition of its growing importance an ore-dressing option was offered several years ago in the curricula both for mining and metallurgical engineering students. But although the subject of mineral dressing is an outgrowth of mining engineering, its modern development has been along such lines that understanding and progress require more advanced study of chemistry and physics than is called for in the mining and metallurgical engineering curricula. The inclusion of the necessary scientific subjects in the program of study of the candidate for an engineering degree would crowd out so much of the specialized engineering content as to make the granting of an engineering degree unjustifiable. There has, therefore, been authorized a program of study in mineral dressing, based upon the common two years of the pre-engineering curriculum, leading to the degrees of Bachelor of Science upon the completion of the first two years and Master of Science upon the completion of the third year. The curriculum comprises the fundamental engineering subjects, introductory courses in mining and metallurgy, and a thorough training in physics and chemistry, all leading up to the specialized courses in mineral dressing.

ENGINEER OF MINES

The work of the mining engineer, lying as it does at the very basis of our industrial civilization, guiding the production of coal and of all the metals as well as of many other minerals, offers an attractive field for vigorous young men. Mining methods and auxiliary processes are keeping step with the general progress of engineering and afford opportunity for the application of the highest scientific and technical ability. In addition, the problem of human relationship is of importance to the mining engineer who often has to assume broad responsibilities in isolated communities. The mining engineering course at Columbia has always been the most inclusive of all the engineering curricula in the range of its subjects, and the results have justified this type of course.

The region in and about New York is the center of extensive engineering undertakings involving practical questions in engineering and applied geology. Moreover, from the numerous mining engineers and mining companies having their headquarters in New York, there is brought to the University a steady flow of problems and illustrative cases, which originate in all parts of the world and pertain to the widest variety of practice.

This program of study leads to the degrees of Bachelor of Science upon the completion of two years and Engineer of Mines upon the completion of the third year. Two options are offered in the third year: (1) mining engineering, which adheres more to engineering subjects; and (2) mining geology, which emphasizes geological and related courses.

GRADUATE AND PROFESSIONAL DEGREES

REGULATIONS

In order to be admitted to the University under the Faculties of Political Science, Philosophy, or Pure Science, a student must hold a baccalaureate degree in arts, letters, philosophy, or science, or an engineering degree, from an approved institution, or have an education equivalent to that represented by one of these degrees.

Students are advised to ascertain, by addressing the Director of University Admissions, before coming to the University, whether the college from which the baccalaureate degree has been received is upon the list of institutions whose degrees are accepted by Columbia University as entitling the holder to admission under one of these faculties; or for a ruling upon an education claimed to be the equivalent of an acceptable Bachelor's degree.

A student who is graduated from a college which is not on the approved list should submit (1) an official transcript of his college record, showing the grades received in the several courses; and (2) a catalogue of his college in which he has marked (*a*) each of the subjects that he offered for admission, and (*b*) each course for which he has received credit toward the degree.

Students of mature age and special fitness whose previous education does not entitle them to admission as students under one of these faculties, may be admitted as students in the University, and, with the authorization of the Director of University Admissions, may register for courses under the control of these faculties. In general, students who do not hold the first degree or its equivalent are recommended to apply for admission to Columbia College, Barnard College, or the School of Practical Arts.

Every student is admitted subject to the disciplinary powers of the University.

No degrees are granted by the University for work done *in absentia,* and a minimum residence in the University of one academic year is required of every candidate for a degree. A year of residence under the Faculties of Political Science, Philosophy, and Pure Science is defined as registration for and attendance upon courses aggregating not less than thirty tuition points, distributed over a period of not less than one academic year or its equivalent. Four Summer Sessions or two Summer Sessions together with a Winter or Spring Session are equivalent to one academic year. In certain cases and by special arrangement time exclusively devoted to investigation in the field will be credited in partial fulfillment of the residence requirement of candidates for the degree of Doctor of Philosophy.

Courses in Professional Schools. In lieu of courses that are listed as graduate courses under departments or divisions of the Faculties of Political Science, Philosophy, and Pure Science, a student may offer courses listed under the School of Law, the College of Physicians and Surgeons, the School of Engineering, Union Theological Seminary, the New York School of Social Work, or graduate courses under the Schools of Architecture, Business, Journalism, or Library Service, in fulfillment of not more than fifteen points of the residence requirement toward the degree of Master of Arts or Doctor of Philosophy, provided such courses are previously approved for this purpose by the Dean and are not offered by the candidate for credit toward a professional degree or diploma.

Doctor of Philosophy. A student admitted to the University under the jurisdiction of the Faculties of Political Science, Philosophy, or Pure Science, who wishes to become a candidate for the degree of Doctor of Philosophy, will be matriculated by the Dean upon the recommendation of the department in which his research work lies. Departments will recommend students for matriculation upon the following conditions:

1. The student must have pursued graduate studies in residence in this University or in some other institution approved by it for the equivalent of at least one academic year as defined in the regulations of the University.

2. The student must have satisfied the department that he is proficient in such languages as it may under the rules of the Faculty prescribe.

3. The student must have satisfied the department that he is prepared to undertake researches under its direction.

The Dean will admit a candidate for the degree to final examination and appoint a committee to examine him upon the recommendation of the department in charge of his work.

Departments will recommend candidates for examination upon the following conditions:

1. The candidate must have pursued graduate studies and research for at least two academic years, one of which must have been spent at this University. The years of graduate study prior to his matriculation may be accepted in part fulfillment of this condition.

2. The candidate must have satisfied such preliminary examinations or requirements as the department may demand.

3. The candidate must have prepared a dissertation approved by the department and embodying the results of his researches. This dissertation must be printed either prior or subsequent to the final examinations, as the department may require.

Students are advised to consult the divisional Announcements and the administrative officers of the departments under which they are pursuing their studies, concerning the departmental requirements for admission to candidacy and for final examination.

Applications for the final oral examination for the degree of Doctor of Philosophy may be filed with the Dean at any time but not later than April 1 if the examination is to be held in the same academic year in which the application is filed. Examinations will be held not earlier than three weeks after the filing of the applications.

Each candidate for the degree of Doctor of Philosophy shall present a dissertation embodying the results of original investigation and research on some topic previously approved by the professor in charge of the major subject. When such dissertation has been approved, it shall be printed by the candidate, and 75 copies shall be delivered to the Librarian of the University before the degree is conferred. On the title-page of every such dissertation shall be printed the words, "Submitted in partial fulfillment of the requirements for the degree of Doctor of Philosophy, in the Faculty of ——, Columbia University"; the full name of the author; the full title of the dissertation; the year and place of imprint, and if a reprint, the title, volume, and pagination of the publication from which it was reprinted. There shall be printed and appended to each dissertation, in the form of a vita, a statement of the place and date of birth of the author, of the educational institutions that he has attended, and a list of the degrees and honors conferred upon him, as well as the titles of his previous publications.

Under the Faculties of Philosophy and Pure Science, the dissertation is not required to be printed until after the examination of the candidate. Students should, however, at least three weeks prior to their examination, deposit three typewritten copies of the dissertation in the Dean's office for the inspection of the examiners.

The general examination for the degree of Doctor of Philosophy will not be confined to the courses which the candidate has attended in Columbia University or elsewhere, or even to the field covered by such courses. The candidate is expected to show a satisfactory grasp of his subject as a whole and a general acquaintance with the broader field of knowledge of which this subject forms a part.

Master of Arts. A student regularly admitted to the University under the Faculties of Political Science, Philosophy, and Pure Science and accepted as a candidate for the degree of Master of Arts will be recommended for the degree after the following requirements have been satisfied:

1. The candidate shall have registered for and attended courses aggregating not less than thirty tuition points, distributed over a period of not less than one academic year or its equivalent.

2. The candidate shall have satisfied the department of his choice that he has completed all the requirements specified by the department for the degree. These requirements may include the completion of courses and the assigned work in them, examinations, an essay, seminars, or other work prescribed by the department.

Students are advised to consult the divisional Announcements and the administrative officers of the departments, under whom they are pursuing their studies, concerning the departmental requirements for the degree.

Each candidate for the degree of Master of Arts must file a formal application for the degree on a blank provided for the purpose, to be had from the Registrar. If the degree is to be conferred in February, the application must be filed with the Registrar on or before December 1; if in June, on or before March 1; if in December, on or before August 1. The last named date applies to candidates who shall complete the requirements of residence and attendance in the Summer Session then in progress. Diplomas are issued on the last Wednesday in February, on Commencement day, and on the third Wednesday in December, corresponding, respectively, to the foregoing dates of application.

When an essay is required, it shall be submitted to the appropriate department at such times as the department may designate. If the essay is accepted, two typewritten or legibly written copies, together with a certificate of acceptance by the professor in charge, shall be deposited with the Registrar at least two weeks before the candidate expects to receive his degree. These copies must be written on "Paragon Linen" 11 x 8½ inches in size, 20-pound weight, "Royal," a space of 1½ inches on the inner margin being left free from writing. The title-page shall contain the words: "Submitted in partial fulfillment of the requirements for the degree of Master of Arts in the Faculty of ———, Columbia University."

Any undergraduate student in Columbia University who, in the final session of his candidacy for a Bachelor's degree, is within twelve points of that degree may, with the approval of the appropriate Deans, register for graduate courses with a view to offering such courses in fulfillment of the requirements for residence for a higher degree, provided, however, that he shall not receive graduate credit in excess of the difference between fifteen points and the number of points that he needed to fulfill the requirements for his Bachelor's degree at the beginning of such session.

On final certification by the Dean of the appropriate Faculty that all official regulations have been complied with, a candidate shall be recommended to receive the degree of Master of Arts for the satisfactory completion of an approved curriculum.

Master of Laws. Any student who has been graduated from an approved college or scientific school of collegiate rank, or who has successfully completed three years of undergraduate study in an approved college or scientific school, such course of study including satisfactory courses in economics and in English and American history, and who has also successfully completed three years of study in an approved law school, and who shall thereafter, during one year of residence at Columbia University, satisfactorily complete a course of study approved by the Dean of the Faculty of Law, shall be entitled to be recommended for the degree of Master of Laws.

Doctor of Law (Doctor Juris). The regulations for the award of the doctorate in Law are administered by the Joint Committee on Graduate Instruction of the Faculties of Political Science, Philosophy, Pure Science, and Law, and candidates for the degree will be recommended for matriculation and examination under the same general regulations as prevail for the degree of Doctor of Philosophy.

The recommending officer, both for matriculation and final examination, will be the Dean of the Law School.

Master's Degree in Education and in Science. Candidates for the degree of Master of Arts in the Department of Education are under the jurisdiction of the Faculty of Education at Teachers College. (See the current Announcement of the Faculty.)

The degree of Master of Science is awarded as a graduate professional degree under the Faculty of Engineering, the Faculty of Practical Arts, the School of Architecture, the School of Library Service and the School of Business. For information with regard to candidacy for this degree, application should be made to the Dean or Director of the faculty or school concerned.

Delegates to the University Council (see page 9).

General Statement. In 1883 the Trustees of Columbia College offered degrees to women who should be able to pass the necessary examinations, without, however, providing instruction for them. The resulting system, called the Collegiate Course for Women, proved unsatisfactory to both parties. Barnard College was, therefore, organized in 1889 to provide instruction for women which should be identical with or equivalent to that provided by Columbia for men.

For eleven years it duplicated for women as far as possible the curriculum of Columbia College, and also registered for graduate work under the University Faculties women who held the Bachelor's degree from institutions of good standing. Its instructors were members of the University staff. Examinations for entrance, those given in course, and those for degrees, were conducted by Columbia University. During the first three undergraduate years separate instruction was given to women; in the senior year they were admitted to certain courses in the University. Graduate students attended many courses at the University under the Faculties of Philosophy, Political Science, and Pure Science, the laboratory work in science being done at Barnard College.

The numerical growth of Barnard College made inappropriate, however, the informal arrangement for instruction which was the natural method at the outset, and it became necessary to recognize formally the status which had gradually come into existence. An agreement was accordingly entered into in January, 1900, by which Barnard was included in the University system. Barnard is now an independent college for women with a corporation and a faculty of its own vested with all the powers commonly belonging to such bodies. At the same time, it shares the Library, the instruction, and the degrees of Columbia University.

A more exact idea of the relations between Barnard College and Columbia University and also of the relations between Barnard College and Teachers College is to be found in the current Announcement of Barnard College. This may be obtained without charge upon application to the Secretary of the Committee on Admission of Barnard College.

Admission. See Undergraduate Entrance Requirements, page 145. More detailed information will be found in the Announcement of Barnard College.

Advanced Standing. See "Advanced Standing in Columbia College," page 149.

In addition, the final determination of credits of students admitted by transfer lies with the Committee on Transfers, which reserves the right of readjusting credit at any time.

No applicant may enter the senior class as a candidate for a degree after October 15 in any year, and no student will receive a degree who has resided less than two full sessions (Winter or Spring) at Barnard College.

Special Students. Women who wish, without working towards a degree, to make a serious study of some subject or group of subjects, may with the approval of the Committee on Admissions, enter Barnard as non-matriculants. They need not pass formal entrance examination, but they must submit satisfactory credentials in regard to character and qualifications for the courses they wish to take.

Candidates for admission as non-matriculants must be at least eighteen years of age. They may not pursue merely elementary courses. They must not, within ten months of the time of application, have been rejected or become deficient as regular students.

They will be held to the observance of the same regulations as to attendance, examination in course, proficiency and deficiency as regular students. They are also subject to the usual health regulations.

They are entitled to a formal statement as to the satisfactory completion of the work that they have taken. They may, in view of a satisfactory record in college courses, be transferred by the Committee on Instruction to the matriculated basis as candidates for a degree.

Matriculation, Registration, Fees. Detailed information regarding matriculation registration, and fees will be found in the current Announcement of Barnard College.

Residence Halls. See page 140.

Electives	56
Total	120

Physical education is prescribed for all students during their period of residence.

Program of Studies for Degree with Certificate in Science or Mathematics. This program is the same as the foregoing except in the following respects:

A major subject of 28 points in one of the following natural sciences: astronomy, botany, chemistry, geography, geology, mineralogy, physics, experimental psychology and zoology or in mathematics, and

Two minor subjects of at least 12 points each, one in a subject allied to the major and one in a diverse subject, both to be chosen from the foregoing list with the addition of anthropology.

Additional grouped work in science or in mathematics, or in science and mathematics, amounting to at least 8 points.

Degrees with Honors in Special Subjects. The Honors Course has been arranged for exceptionally well-equipped students with a pronounced interest in some one subject. It offers to these an opportunity to do more intensive and better work than the ordinary students, to have more chance for independent study, and at the same time more individual conferences with the professors in their major department. It gives them also the opportunity of attaining, by successful completion of this course, high academic honor. Entrance into the course is optional with those students who are eligible.

Students who have completed 60 points of work with 75 per cent of grade A and B are eligible as candidates for the Honors Course. The names of students who would be eligible for the course on this basis, providing the quality of work is sustained until the end of their sophomore year, will be posted during the third week in March. Students who wish to apply for the course should do so to the Committee on Honors by April 10. Admission to the course will be subject to the approval of the department in which the student elects to work.

In special cases permission will be given to enter the course in the middle of the junior year, providing similar conditions of eligibility are met.

The eligibility percentage will be figured only on the work taken at Barnard College. Summer Session courses may count to bring the student's points up to the 60 required for admission to the course, but they will *not* count in the percentage of A and B grade.

Ordinarily students who cannot complete their 60 points until the deficiency examinations in September will not be eligible for admission to the Honors Course until the following February.

A student whose name is not on the eligible list may be recommended as a candidate for the Honors Course by any department in which she is doing work of conspicuous excellence and promise. Subject to the approval of the Committee on Honors, such students shall be admitted to the Honors Course.

Every department will, at its discretion, assign some work to be done by its candidates during the summer. The result of this work and the students' records as a whole will be scrutinized by the department before a decision is made as to the admission of the candidates. The department may require a qualifying examination or some other form of test.

After a student has been admitted to this course the appropriate department takes charge of her work and, subject to the approval of the Faculty, arranges the curriculum to be pursued for a degree with honors in her special subject.

Students in the Honors Course are not exempt from the completion of the group requirement, and this requirement includes a laboratory science. Where the completion of the group requirement cannot be taken parallel to the Honors Course, the student should try to satisfy it in Summer Session courses. This is possible in practically every subject excepting the laboratory science. Students seriously deficient in the group requirement will not be admitted to the Honors Course.

All honors students are required to pass by the end of their junior year the regular foreign language test in French or German or Greek or Latin. They are also required to pass a reading test in another foreign language, to be set by the department in charge of their work before the mid-year examination period of their senior year. Students failing to meet these requirements are dropped from the Honors Course.

During the junior year students admitted to the Honors Course are held on probation, and at the end of the junior year, if they have not done thoroughly satisfactory work, the Committee on Honors will recommend that they return to the usual course of study.

During the junior year honor students will be expected to take the regular examinations in the courses for which they are registered and to receive grades in their work, the understanding being that examinations may be omitted only in courses that are elected as optional.

In the senior year all regular examinations in the major subject are omitted, examinations in other subjects being at the option of the major department, and at the end of the year the student takes a comprehensive examination in her subject. Students who pass the comprehensive examination with high standing are recommended for the degree with honors in their respective subjects. If the examination is passed only moderately well, the student will receive the degree but without honors.

Honor students are exempted from the technical requirement of 120 points, from the usual regulation of class attendance, which in their cases will be under the direction of their major departments, and in their senior year, from the customary system of grading. Honor students are not exempted from the supervision of the Department of Physical Education.

Preparation for Professional Schools. Students who intended to transfer to professional schools are of two classes, those who leave Barnard at the end of the sophomore year without candidacy for the Bachelor of Arts degree, and those who at the end of the junior year wish to take advantage of the "combined course," counting the first year of an approved professional school in place of the senior year at Barnard.

Barnard students intending to transfer to professional schools without candidacy for the degree of Bachelor of Arts are required to take courses in English composition, speech, hygiene and physical education throughout their stay at Barnard, and such other courses are appropriate in preparation for the professional school to which the transfer is to be made.

Students with a good record may, by special permission of the Committee on Instruction, count the first year of an approved professional school in place of the senior year at Barnard. To be eligible for this "combined course" a student must complete at Barnard, before transferring to the professional school, 90 points of academic work including all grouped work and a major of 28 points unless this number is reduced in individual cases by special permission of the Committee on Instruction.

Students transferring to Barnard from other institutions will be granted this privilege of a "combined course" only if they have an unusually good record and in no case will the permission of the Committee on Instruction be given until after the student has completed at least a full year of work in Barnard College.

University Courses. Certain courses in the Department of Music and in Teachers College are open to regular students registered in Barnard College. Certain graduate courses in Columbia University under the Faculties of Political Science, Philosophy, Pure Science, and Education, are open to specially qualified Barnard seniors.

After two years of collegiate work in Barnard a student may transfer without examination to the School of Architecture as a candidate for the degree of Bachelor of Architecture or to the School of Business as a candidate for the degree of Bachelor of Science; after three years to the School of Journalism as a candidate for the degree of Bachelor of Literature; after three years (or two in exceptional cases) to the College of Physicians and Surgeons as a candidate for the degree of Doctor of Medicine; after three or four years to the School of Law as a candidate for the degree of Bachelor of Law.

Detailed information in regard to these opportunities will be found in the Announcements of Barnard College and the other schools concerned.

General Statement. Teachers College, founded in 1888, and chartered by the Regents of the University of the State of New York in 1889, became, in 1898, a part of the educational system of Columbia University. The President of Columbia University is President, *ex officio,* of Teachers College and the College is represented in the University Council by its Dean and representatives elected from its two Faculties. The College, meanwhile, maintains its separate corporate organization, and its Board of Trustees continues to assume entire financial responsibility for its maintenance. In 1912 the Trustees reorganized Teachers College, establishing the School of Education with the Faculty of Education, and the School of Practical Arts with the Faculty of Practical Arts; and in 1932 New College for the education of teachers was established with a separate Faculty. In addition to these professional schools, Teachers College conducts the following schools below college grade:

Horace Mann School, Horace Mann School for Boys, Lincoln School, and the nursery schools of the Child Development Institute.

The central group of the Teachers College buildings occupies the block directly north of the University Campus, bounded by 120th and 121st Streets, Amsterdam Avenue, and Broadway. It includes the main Teachers College Hall, containing offices, lecture and conference rooms—adjoined by Milbank Memorial Hall, providing space for academic and technical instruction and containing the Memorial Chapel; by Macy Hall, with its equipment for fine arts and industrial arts; and by Grace Dodge Hall for work in the field of household arts. Russell Hall, the library and administration building of Teachers College, was completed early in 1924 and adjoins the main Teachers College Hall on the east. Frederick Ferris Thompson Memorial Hall, equipped for physical education, connects Milbank Hall on the west with the main building of Horace Mann School. Macy Annex, a two-story building on 121st Street between Macy Hall and Horace Mann School, and Lowell Annex, a two-story building adjoining Russell Hall, afford office and classroom space.

Speyer Hall, situated a short distance north of the College on West 126th Street near Amsterdam Avenue, houses the work of the Child Development Institute.

The Residence Halls are Whittier Hall, at the eastern end of the block of College buildings and facing on Amsterdam Avenue; Bancroft Hall, on the north side of 121st Street, opposite Grace Dodge Hall; Seth Low Hall, situated at the corner of 121st Street and Morningside Drive; and two additional apartment buildings, Sarasota Hall and Grant Hall, at 512 and 514 West 122d Street.

The buildings of Horace Mann School for Boys, a country day school, are located near Van Cortlandt Park. This group includes the main school building, the principal's residence, a gymnasium, a swimming pool, and a grand stand. Lincoln School, an experimental school of Teachers College which was opened in 1917, occupies a building at 425 West 123d Street, between Amsterdam and Morningside Avenues, which was especially constructed to meet the needs of this school. An addition on the west, at 433 West 123d Street, completed in the spring of 1928, houses the Institute of School Experimentation, the research activities of Lincoln School, and other researches in education. A swimming pool for the pupils of Lincoln School was opened at the same time.

School of Education. The School of Education is a professional school of Columbia University taking academic ranking with the Schools of Law, Medicine, and Engineering. It affords opportunity for the advanced study of educational psychology and sociology, the history and philosophy of education, comparative education, educational economics, psychiatric education, educational administration, higher education, the curriculum, vocational and educational guidance, educational personnel, vocational, religious, and rural education, child development and parent education, civic education, adult education, and the various aspects of secondary, elementary, and kindergarten education. It provides professional training, both theoretical and practical, for teachers of both sexes for secondary, grammar and primary schools, kindergartens, and nursery schools; and offers preparation for advanced students for work as principals, supervisors, and superintendent of schools; as heads of academic or education departments in normal schools and teachers' colleges, and as administrators and heads of education departments in colleges and universities.

Curricula. Since July 1, 1914, the School of Education has been organized on a graduate basis offering graduate curricula for advanced students leading to the Teachers College diplomas in teaching, and to the degrees of Master of Arts and Doctor of Philosophy with a major in education. Teachers College diplomas are awarded to those who demonstrate professional fitness as instructors in education in colleges and universities, as supervisors, principals, and superintendents of schools of all grades, as heads of academic or education departments in normal schools and teachers colleges, and as teachers in secondary schools. Courses in education may also be counted in Teachers College towards the Bachelor of

Science degree, and as minor subjects towards advanced degrees by students primarily registered in some other part of the University. For detailed information, see the current Announcement of Teachers College which may be had from the Secretary of Teachers College.

School of Practical Arts. The School of Practical Arts is a professional school of the University ranking with the Schools of Education, Law, Medicine, Engineering, etc., and devoted to the training of teachers and other workers in such technical fields as household arts (including household arts education), industrial arts education, fine arts (including fine arts education), music education, hygiene and health education, physical education, nursing education, and practical science.

From its organization in 1912 to June, 1924, the School offered to both men and women a program of study four years in length, equivalent in standards of admission and graduation to the traditional college course in letters and science. Beginning with June 30, 1924, the minimum requirement for matriculation for the Bachelor's degree became two years of approved collegiate study beyond high school. Since July, 1925, the School has been organized on the same basis as the School of Education.

Curricula. The curricula of the School lead to the same degrees and diplomas as stated above for the School of Education; also to the degree of Master of Science for graduate students specializing in the technical phases of practical arts.

For detailed information, see the current Announcement of Teachers College which may be had from the Secretary of Teachers College.

New College for the education of teachers for nursery schools, kindergartens, elementary and secondary schools, opened at Teachers College, Columbia University, in September, 1932, is an integral part of Teachers College and therefore an integral part of Columbia University. New College, however, is organized as a separate unit with its own Faculty and staff. It has its own distinctive purposes as do the other divisions of the University. While the major purpose of Teachers College is the further professional development of experienced teachers and the preparation of administrative and supervisory officers, New College is directing its attention to the initial preparation of the teacher for nursery school, kindergarten, elementary and secondary schools.

Horace Mann School and *Horace Mann School for Boys,* maintained by Teachers College, with a complete organization covering the work of the kindergarten, elementary school, and junior and senior high school, offer exceptional advantages for the study of the practical work of teaching and for the investigation of educational problems.

Lincoln School is a laboratory school of twelve grades and kindergarten, founded in 1917 by the General Education Board and made an integral part of the College.

The Institute of Educational Research was established in 1921 to promote the scientific study of education in coöperation with the several departments of the College and with other institutions interested in investigation and research. It is organized under an Administrative Board in two divisions, viz.: Division of Educational Psychology; (2) Division of Field Studies. The staff of the Institute is drawn from available experts wherever they may be found and assignments are made for limited periods on specific undertakings.

The International Institute was established by Teachers College in 1923, as part of the work of the College for the professional guidance and training of foreign students, for the instruction of American students in educational conditions and procedures abroad, and for encouragement of research and investigation of school systems and methods of education in other lands. The research activities include foreign travel and study, surveys of education in other lands, the collection of educational materials, journals and books, translation and publication. In limited numbers there are offered tuition scholarships for foreign students and special grants from the Macy Foreign Student Fund for exceptional educators from abroad. The Institute is organized under an Administrative Board consisting of the Dean of Teachers College, the Director of the Institute, and the Associate Director.

The Child Development Institute was established in 1924. Its purposes are (1) to train leaders in the fields of child welfare and parent education and (2) to study child development in its physical, mental and social phases. The Institute conducts a nursery school, a guidance nursery, a psychological consultation center (in coöperation with the psychology department of Teachers College), and a Family Consultation Bureau. Studies are being made in physical growth, nutrition, social development, and mental development of preschool children.

The Institute of School Experimentation was organized in 1928 to carry on scientific investigation by use of experiments in school subjects, practices, and procedures.

The Institute of Practical Arts Research was organized in 1930 for the encouragement of research, investigation, and experimentation in the various fields of practical arts.

SCHOOL OF ARCHITECTURE

FACULTY

President Butler.
Dean Boring.
Professors Allen, Briggs, Dillenback, Dinsmoor, Hudnut, Walsh (*Secretary*).
Delegate to the University Council (see page 9).

The School of Architecture of Columbia University is a professional school for men and women. The teaching staff and equipment are adequate for an enrollment of about 115 men and 10 women. Work in architecture was begun at Columbia University in 1881. The School of Architecture was established under the Faculty of Applied Science in 1896. In 1906 it was combined with the Department of Music in a Faculty of Fine Arts, and in 1914 was made a separate school under an Administrative Board.

It receives two classes of students: (1) Candidates for the degree of Bachelor of Architecture, who must give evidence of having completed two years of academic study in a recognized college. The curriculum offered to such students is of indeterminate duration but may generally be covered in four years. (2) Candidates for the degree of Master of Science in Architecture. Candidates for this degree must be graduates of this School of Architecture or of a school of architecture maintaining equivalent courses, and are required to spend not less than one academic year upon work assigned by the Administrative Board of the School of Architecture.

Building and Equipment. In 1912 the School of Architecture took possession of its present quarters in Avery Hall, erected in memory of the late Samuel P. Avery, a benefactor of the University, and of his son, the late Henry O. Avery, an architect, to accommodate the Avery Architectural Library and the School of Architecture. Four floors of the building are occupied by the School.

The Avery Architectural Library, consisting of about 25,000 volumes relating to architecture and allied arts, occupies the ground floor of the building, and is open to the public daily (except Sundays and holidays and during a period of six weeks following the Summer Session) from 9 a. m. to 10 p. m. Its material is available for the purposes of study and illustration in the School, whose students are freely admitted to its alcoves without restriction upon the use of books and documents for drawing, tracing, and photographing.

In addition to this the School possesses, in its own departmental library, the Ware Memorial Library, a collection of about 18,000 photographs and several hundred books, a classified library of many thousands of prints and plates, and a large number of original drawings from various sources. The equipment of illustrative material furthermore comprises 16,000 lantern slides of architectural subjects, a collection of casts of architectural details, including a large number from ancient and modern Roman buildings, the gift of the late Charles F. McKim, and several valuable models of buildings and of structural details.

Admission. Except by special action of the Committee on Admissions, regular students under eighteen are not admitted. For regulations governing admission to the course for the Bachelor's degree in Architecture and for the degree of Master of Science in Architecture, see Index.

In general, all courses in the School of Architecture begin in September and run through the year, although the two sessions are separately rated. It is, therefore, extremely difficult to make adequate arrangements for students who wish to enter in February.

Students desiring to enter with credit for courses pursued in other institutions must make application in writing to the Director of the School of Architecture in time to reach him one month before the beginning of registration (see Academic Calendar). The general regulations as to documents to be submitted and as to the acceptance of certificates are the same as for the School of Engineering.

Fees. For summary of fees, see Index.

Fellowships and Scholarships. For information with regard to fellowships, scholarships, and prizes, see Index.

Examinations. Regular examinations in each course are held at the end of each half-year. All other examinations, except examinations for admission to advanced standing, are special examinations, for which the statutory fee of $3 is charged (see page 134). For the dates of the various examinations see the Academic Calendar. Absence from any regular or delinquent examination for which a student is registered is regarded as a failure. A student who fails to attend any mid-year examination will be excluded from the second term in that subject, except for reasons of weight. Those for whom exceptions are made will be required to take the corresponding deficiency examinations during the stated September deficiency examination period.

Students who do not pass or are debarred from a regular mid-year or final examination must remove such deficiency at the September delinquent examinations, failing which they must repeat the course concerned. Students will be debarred from examinations for excessive absence from lectures or failure to complete collateral work. They may for the same reasons be excluded from any course at the middle of any term.

Bachelor of Architecture. 1. Candidates for admission to this course must give evidence of having successfully completed the equivalent of two years of academic studies in a recognized college. The entrance requirements include: solid geometry, plane trigonometry, algebra, analytic geometry, and calculus. *Physics A* or equivalent may be substituted for calculus. The required collegiate preparation includes two years of French or one year of college French in advance of the elementary entrance requirement in French. Students who have completed two years of German, of Spanish, or of Italian in college may be permitted on application to substitute these for the second year of college French. Candidates must also show a practical knowledge of freehand drawing.

2. In case of studies pursued elsewhere than in a recognized college, and offered by the candidate in lieu of any part of the college preparation, the Faculty of the School will determine each equivalent upon its merits.

3. Through the coöperation of the staff of the School of Architecture and the Committee on Instruction of Columbia College, a program for a combined course of six years has been arranged. Its object is to enable students in Columbia College to begin the study of architecture early in their college course and to obtain unbroken training in this field until they receive the professional degree. Upon completing the fourth year of this curriculum students receive the degree of Bachelor of Arts and at the end of the whole course, the degree of Bachelor of Architecture. The combined course has decided advantages in soundness of preparation and breadth of culture and it is earnestly commended to young men in preparatory schools who look forward to the study of architecture. Copies of this program may be obtained on application to the Secretary of the University.

A student receives his degree when he has satisfied the requirements of the courses as outlined in the Announcement of the School.

In connection with the schedule of required work it should be understood that students credited with advanced standing on the basis of work done in other institutions, as well as others especially qualified, may in any year undertake in part the work of more advanced years subject to the restriction stated above. Those interested in further details concerning the program of courses should consult the Announcement of the School of Architecture.

Students in the School of Architecture who desire to be candidates for the degree of

Master of Arts or Doctor of Philosophy are subject to the general provisions for those degrees (see Index).

The degree of Master of Science is awarded as a graduate professional degree in the School of Architecture. For information with regard to candidacy for this degree application should be made to the Dean of the School.

Graduates of this school and of other schools of architecture maintaining equivalent courses are admitted to the graduate courses in design and construction, whether candidates for the higher degrees or not.

The courses in architecture open to candidates for the higher degrees are those numbered above *100* in the Announcement.

Evening courses in architecture leading to a Certificate of Proficiency are offered under University Extension.

The College of Pharmacy of the City of New York, founded in 1829, chartered in 1831, and recognized in 1879 by the Regents as part of the University of the State of New York, became a member of the educational system of Columbia University on July 1, 1904. The President of the University is *ex officio* President of the College of Pharmacy, and the College is represented in the University Council by its Dean, who is appointed by the Trustees of the College of Pharmacy on the nomination of the President, and by one elected member of the Faculty. The College, however, maintains its separate corporate organization, and its Trustees continue to provide for its financial support.

The College is situated at 113-119 West 68th Street, near Broadway, in an especially well-equipped building erected in 1894. A second building, erected in 1923, doubles the teaching facilities of the School.

The College of Pharmacy is thus the professional school of Columbia University for Pharmacists, Pharmaceutical Chemists, Bachelors of Science in Pharmacy and Doctors of Pharmacy, as well as a valuable addition to the University's resources for teaching and research in botany, chemistry, pharmacy, and materia medica.

Admission. See the Announcement of the College of Pharmacy.

College Course. The College Course of three years leading to the degree of Graduate in Pharmacy is open only to persons holding the qualifying certificate for a pharmacy student, granted by the State Education Department on evidence of the completion of a recognized course in a high school.

University Course. The University Course, leading in three years to the degree of Pharmaceutical Chemist, in four years to the degree of Bachelor of Science in Pharmacy, and in six years to that of Doctor of Pharmacy, is open only to persons who have completed a four-year approved course in a registered high school of New York State, or who have passed the entrance examinations of Columbia University or of the College Entrance Examination Board or who have complied with the new method based on psychological tests.

Program of Study. 1. A College Course consisting of three years, leading to the degree of Graduate in Pharmacy, conferred by the College independent of the University, and qualifying the graduate to meet the requirements for admission to the licensing examinations of New York and some other states.

The work undertaken is as follows. *First year:* botany, posology, general physics, inorganic chemistry, analytical chemistry, pharmacy, practical pharmacy, dispensing pharmacy. *Second year:* pharmacognosy, inorganic chemistry, analytical chemistry, physics, physiology and hygiene, microbiology, practical pharmacy, dispensing pharmacy, commercial pharmacy and pharmaceutical jurisprudence. *Third year:* materia medica, toxicology, organic chemistry, analytical chemistry, new remedies, manufacturing pharmacy, dispensing pharmacy, merchandising and pharmacal sundries.

2. A University Course of three years leading to the degree of Pharmaceutical Chemist, and in four years leading to the degree of B.S. in Phar. conferred by the University. The work of this course differs from that of the College Course in occupying five days a week during each year. In addition to the studies of the College Course, the University students receive instruction in English, German, mathematics, American government, bacteriology, applied pharmacognosy, botanical taxonomy, quantitative chemistry, food analysis and toxicology, and biological chemistry. Those completing this course are eligible to license as directors of bacteriological and biological laboratories in the city and state of New York. The work of the fifth and sixth years leading to the degree of Doctor of Pharmacy consists essentially of training in research. It comprises thirty hours of work weekly in the department in which the major course is taken and three hours weekly in each of the other two departments. For the present not more than two students can be accommodated in each of the three departments.

3. A Summer Laboratory Course of twelve weeks is provided for those who, for any reason, require training in special subjects.

4. Evening courses of instruction are offered for the benefit of special students, and for those regular students who for any reason may desire the instruction. These courses cannot, at least for the present, take the place of any instruction of the regular course leading to a degree. Certificates will be awarded to those who successfully pursue these evening courses.

Schedules. See the Announcement of the College of Pharmacy.

Library. The library of the College of Pharmacy contains approximately 8,000 bound volumes and journals as well as many pamphlets and is open to the general public, as well as to the student body. It is in charge of a trained librarian.

SCHOOL OF BUSINESS

FACULTY

President Butler.
Dean McCrea.

Professors Alexander (R. S.), Beckhart, Blanchard, Bonbright, Brissenden, Byrnes, Chapman, Dodd, Dohr, Haig, Kester, Lyon (H.), Mills, Morgan (O. S.), Nixon, Nystrom, Orchard, Shoup, Smith (J. R.), Stockder (*Secretary*), Van Metre, Willis.

General Statement. The School of Business, organized in 1916, offers a complete professional course in business to properly qualified students, both men and women. It is the aim of the course to afford a sound knowledge of fundamental business facts and principles in addition to such practical training in business methods as a school can furnish. The courses are designed especially for the college student who at the close of his sophomore year desires to secure a more thorough and exact knowledge of the principles, organization, and methods of the commercial, industrial, and financial world than is furnished in other departments of the University, and for those persons already engaged in business who desire to obtain deeper insight into the problems of their respective vocations as well as a broader knowledge of allied fields of business activity. A special object, also, is to lay a thorough foundation for the state examination for the certificate of certified public accountant.

Curriculum. The curriculum consists of a two-years' series of courses based upon two years of collegiate study leading to the degree of Bachelor of Science with an additional year leading to the degree of Master of Science, and with further years of study leading to the degree of Doctor of Philosophy. There is also a one-year secretarial course open to college graduates, and leading to a certificate.

Bachelor of Science Degree. The work required for this degree consists of two years of college work pursued in an acceptable institution, followed by a program of 60 points in the School of Business, which will ordinarily involve two years of study and is met by completing certain prescribed courses including first year accounting, banking and business, corporation finance, business law, statistics, elements of business administration, economic geography, and electives to total the 60 points required for the degree. Students may choose electives from the fields of accounting, banking, finance, foreign trade and consular service, insurance, labor administration, merchandising, statistics, transportation, and secretarial training. Every candidate for the degree of Bachelor of Science in the School of Business is required to complete a minimum of 36 points in regular School of Business courses.

Master of Science Degree. Provision is made for two groups of students who are candidates for the Master's degree: (1) those, who, by reason of their training previous to admission to the School of Business, must fulfill a residence of one year (30 points) for the degree of Master of Science, and (2) those who, also by reason of previous training, are placed on the two-year residence (60 point) basis, for the Master's degree.

1. Candidates on the 30 point basis. Students must have completed a four-year course leading to a Bachelor's degree in an acceptable college or university. In the apportioning of subjects of study in this four-year undergraduate course at least one-half of such subjects (reckoned on a point basis) should have been academic and at least one-fourth equivalent to those subjects offered in the School of Business for the degree of Bachelor of Science, including particularly the first year foundation courses. Students offering this preparation may receive the degree of Master of Science after the completion of 30 points, i.e., one year of study, in the School of Business. Such students may elect their entire program. Courses numbered over *100* indicate graduate credit and candidates for graduate degrees should elect only courses so numbered.

2. *Candidates on the 60 point basis.* Students must hold a degree from an acceptable college or university indicating the completion of a full collegiate course such as is generally required for the degree of Bachelor of Arts. Such students, who are candidates for the Master's degree who have not had fundamental courses in business, such as accounting, banking, finance, statistics, and marketing, will ordinarily be required to complete 60 points of work, including the fundamental business courses and electives to total 60 points including a minimum of 30 points in graduate courses. This normally represents a residence of two years.

All candidates for the Master's degree must pass a comprehensive oral examination covering the subjects of graduate study, to be given by a committee of the teaching staff. Candidates are also required to prepare a satisfactory essay under the direction of a designated officer of the teaching staff, the subject to be approved at the beginning of the candidate's residence. The essay shall present the results of original investigation.

Doctor of Philosophy. By action of the University Council, students registered primarily in the School of Business may become candidates for the degree of Doctor of Philosophy under the general regulations for that degree which apply in the Faculties of Political Science, Philosophy, and Pure Science, subject to the approval of the Joint Committee on Graduate Instruction. Candidates for this degree are expected to have had at least three years of previous study in business subjects in an acceptable institution, at least one year of which should have been in graduate work. Properly qualified candidates are required to complete a minimum of 30 points of graduate residence work, including courses in statistics, economic theory, and economic history, in addition to courses in four fields of the student's own choice.

Secretarial Certificate. Candidates for the Secretarial Certificate are required to complete 18 points of elective work, plus a course in stenography and typewriting. They are also required to pass a test in English before the Certificate can be awarded. This course is open to students who hold an A.B. degree from an acceptable institution.

Special and Non-Matriculated Students. Provision is also made for special and for non-matriculated students. For details concerning these groups, as well as for details concerning admission and requirements for candidates for the various degrees in the School, see the School of Business Announcement.

PREPARATION FOR TEACHING

Students in the School of Business who are interested in preparing to teach commercial subjects in secondary and special schools should consult Dean McCrea regarding the program of studies.

The program for such students will include courses in business, general courses in the fields of economics, history, and sociology, and courses in education elected from the offering of the School of Education, Teachers College, under the guidance of Mr. Odell.

In order to be eligible for teaching credentials of Boards of Education such students should elect a minimum of 12 points in education. For details, students are referred to the Announcements of Teachers College and the School of Business.

Candidacy for Degrees. Students intending to apply for degrees must, on or before the dates indicated in the Academic Calendar, pay the required fee and file with the Registrar the application for graduation.

Advanced Standing. Students who apply for admission to advanced standing upon the basis of certificates of transfer from other colleges, should fill out the appropriate application blank, to be obtained from the Secretary of the University and file it with the University Committee on Admissions before August 1 or January 1. Each candidate (whether he has a degree or not) must also present an official transcript of his academic record and a certificate of honorable dismissal together with a marked catalogue of the institution that he leaves, showing the courses he has there pursued, with grades received in each. In no case will the number of advanced credits granted toward the undergraduate degree in business subjects exceed 24 points.[1]

Scholarships. A number of scholarships affording financial assistance to needy students are available in the School of Business. All scholarships are intended to be academic honors, and no student may hold more than one scholarship. Unless otherwise indicated, application for award for each year of incumbency must be made on or before May 1, on blanks furnished by the Secretary of the University or by the office of the Dean of the School of Business. Failure to maintain a grade of at least C in all courses taken, or serious academic censure for any cause, will operate to vacate the scholarship before the beginning of the next session. Vacancies may be filled and partial scholarship grants made at the discretion of the Committee.

This year the School of Business received as a gift, one scholarship of $300, the donor of which was Mrs. Arthur K. Salomon. This scholarship was awarded by the Dean to a student interested in banking and finance.

---

[1] In the discretion of the Dean of the School of Business this rule may be waived, to a maximum of six points, in the cases of those students admitted to the School of Business with entrance deficiencies in academic subjects.

SCHOOL OF DENTAL AND ORAL SURGERY

FACULTY

President BUTLER.
Dean OWRE.

Professors BERGER, BODECKER, CLARKE (H. T.), DETWILER, DUNNING (H. S.), DUNNING (W. B.), GAY, GILLETT, HARTMAN, HUGHES (A. V.), JOBLING, LEONARD (*Secretary*), LIEB, RAPPLEYE, ROWE, TRACY (W. D.), WAUGH, WILLIAMS (H. B.).

Delegates to the University Council (see page 9).

General Statement. In September, 1916, students in dentistry were admitted to courses in Columbia University at the School of Medicine. On March 5, 1917, the Trustees of the University established a School of Dentistry as of September 27, 1916, and from that date the School became an integral part of the University. On March 1, 1920, the dental building adjacent to the School of Medicine and Vanderbilt Clinic was finished and assigned to the use of this school. On July 1, 1923, the College of Dental and Oral Surgery of New York (organized in 1905) was merged with the School of Dentistry and the combined institutions named the School of Dental and Oral Surgery of Columbia University. By this merger the buildings of the College of Dental and Oral Surgery of New York at 302 East 35th Street were acquired by the University and served to house the School until September, 1928, when the School was again moved to its permanent quarters in the Columbia University-Presbyterian Hospital Medical Center at 630 West 168th Street.

In its present location, the School occupies three floors of the Vanderbilt Clinic wing of the Medical Center and its halls are continuous with those of the College of Physicians and Surgeons and the Presbyterian Hospital. It has been newly furnished with modern dental apparatus and is well equipped for undergraduate teaching in dentistry and oral hygiene, for advanced courses to dentists and for research work. The clinic of the School serves as the dental department of the Medical Center. There is the closest possible connection between the dental department and clinic and the medical departments and clinics of the College of Physicians and Surgeons and the Medical Center in the interest of good teaching, research and service to the patients.

It is the purpose of the School of Dental and Oral Surgery to combine in the highest degree practicable a sound knowledge of the fundamentals of medicine with adequate training in the technical procedures of dental science and art. Three years of college work, including certain specified subjects, are required for admission and the course in dentistry covers four years.

On the completion of his fourth year the student who has had three years of collegiate training may be a candidate for the degree of Doctor of Dental Surgery. Students in Columbia College who elect the combined courses (see page 190) will receive the degree of Bachelor of Arts.

The students of the School enjoy all the privileges open to members of any other department of the University. They may live in the University Residence Halls at Morningside Heights and are eligible to membership in the various social and other organizations of the student body.

Application. Students should apply in the spring, if possible, and may use Summer Session courses at Columbia University or elsewhere to make up deficiencies in predental education. All communications should be addressed to the School of Dental and Oral Surgery, 630 West 168th Street, New York City.

Admission. The requirements for admission to the School of Dental and Oral Surgery include the following subjects, to be taken in college: one year of physics, one year of biology, one year of inorganic chemistry based on college entrance chemistry, one-half year of quantitative analysis, one year of organic chemistry, one year of college English, and two years of either French or German plus additional courses to make up a total of 94 points as rated by Columbia College. In 1933 this requirement will be changed to include the requirements of the New York State Board of Regents as follows: 6 semester hours of English composition and literature, 6 semester hours of physics, 6 semester hours of biology, 12 semester hours of chemistry to include an approved 6 semester hour course in organic chemistry. Additional courses to total a minimum of 94 points as rated by Columbia College must be completed. Elective courses should be selected to serve as a comprehensive basis for medical and dental courses.

The courses in physics, chemistry, and biology which are required for admission are represented by the following courses in Columbia College:

1. Elementary physics, including laboratory work, *Physics A1–A2*. At least three lectures and two hours' laboratory work a week for one year.

2. General inorganic chemistry, including laboratory work, *Chemistry 3–4* or *6–7*, organic chemistry, and quantitative analysis—at least two lectures and six hours' laboratory work a week for one year.

3. Biology, including laboratory work, *Zoölogy 1–2*. At least two lectures and four hours' laboratory work a week for one year.

Upon receiving 94 points in Columbia College, which is usually possible in three years, a student may take studies in the School of Dental and Oral Surgery provided he can satisfy the stated requirements for admission thereto and may receive the D.D.S. degree on the recommendation of that school upon the satisfactory completion of four years of professional study. Students who take their preliminary education in other colleges than Columbia must also elect as part of their course, physics, inorganic chemistry, organic chemistry, quantitative analysis and general biology.

Because a limited number of applicants may be accepted, all who are eligible are requested to report at the Dean's office for a personal interview and an examination as to special fitness. The results of the interview and examination, together with the applicant's entire pre-dental record, are carefully considered by the Committee on Admissions in order to select those who are adjudged most capable of meeting the exacting demands of the courses and the profession of dentistry.

Combined Courses. Attention of students who propose to enter the School of Dental and Oral Surgery is called to the program of studies in Columbia College which offers an opportunity to the prospective dental student to take both a collegiate and dental degree in seven years.

Upon receiving 94 points from Columbia College, 64 of which must be for work done in residence, and must include all of the work prescribed for the degree of A.B., a student may in his fourth year take studies in the School of Dental and Oral Surgery and receive the degree of Bachelor of Arts from Columbia College upon the satisfactory completion of the year's work. At the end of three additional years in the School of Dental and Oral Surgery the degree of D.D.S. may be conferred.

Students desiring to effect this combination of courses should address the Secretary of Columbia University for more complete information.

It is usually possible for a graduate of a registered medical school with the degree of Doctor of Medicine to meet the requirements of the School and receive the degree of Doctor of Dental Surgery by the satisfactory completion of a special two-year course.

Summer Courses. Courses in clinical dentistry are offered to students who have completed the requirements of the third year.

Requirements for Graduation. In addition to complying with the requirements for admission and to completing the required work of the curriculum, each candidate for the degree of D.D.S. must present satisfactory evidence, as required by law, of good moral character, and of having attained the age of twenty-one years. If the candidate shall have been admitted to advanced standing, he must have spent not less than four academic years (no two of which shall have begun during the same calendar year) in approved medical or dental colleges, in the study of the subjects making up the curriculum of the School of Dental and Oral Surgery.

Courses in Oral Hygiene, offered by the School of Dental and Oral Surgery are intended for women who desire to become licensed dental hygienists. The requirements for admission are the qualifying certificate obtained from the Department of Education of the State of New York at Albany, New York, the completion of at least four years of high school work, and the attainment of at least eighteen years of age. Full information may be obtained by addressing Professor ANNA V. HUGHES, at 630 West 168th Street, New York.

Postgraduate Instruction. It is usually possible for each division of the School to accommodate two or three dentists who desire to come into the School for study and clinical practice under the regular teaching staff. The School is authorized to grant a Certificate of Proficiency in Dentistry, or in a special branch of dentistry, selected by the candidate, and approved by the Faculty of the School of Dental and Oral Surgery, to graduates satisfactorily completing not less than a year's special work in the clinical branches of dentistry. For further information see the annual Announcement.

SCHOOL OF LIBRARY SERVICE

FACULTY

President BUTLER.
Dean WILLIAMSON.
Associate Dean SANDERSON.
Professors CLEAVINGER, FAY, HAZELTINE, MACPHERSON, MUDGE, REECE, RHODES (*Secretary*), SHAVER, SUTLIFF.

General Statement. The School of Library Service, established in 1926, includes the New York State Library School and the Library School of the New York Public Library which were merged with it at that time. An annual grant was made by the Carnegie Corporation of New York for the support of the School.

The purpose of the School is to "furnish technical and professional instruction in bibliography, the production, distribution and use of books, library methods, and the organization and administration of libraries and book collections of various types."

Building and Equipment. Pending the completion of permanent quarters in the new Library building the School occupies the whole of East Hall, which is situated in close proximity to the University Library. The records, collections, and teaching equipment of the New York State Library School and the Library School of the New York Public Library were transferred to the School of Library Service.

Requirements for Admission. 1. Candidates for the degree of Bachelor of Science must have a Bachelor's degree from an approved college or university. In addition they must be (a) at least twenty years of age at entrance and not over thirty-five unless they have been continuously engaged in library work or some similar intellectual pursuit; and (b) able to show evidence of fitness for library work.

2. Candidates for the degree of Master of Science must offer (a) a Bachelor's degree from an approved college or university; (b) the successful completion of a one-year course in an accredited library school; (c) at least one year's professional experience in an approved library in the field of the major subject; and (d) evidence of fitness to pursue advanced graduate work.

3. Candidates for the certificate must offer a minimum of two years of acceptable academic work completed in an approved college or university as evidenced by a transcript of the college record. They must satisfy the Dean of the School that they possess the requisite personal qualifications for library work. Reasonable facility in typewriting is also required.

Admission to Advanced Standing. Candidates for a degree or for the certificate who have already completed satisfactorily in an accredited library school courses equivalent to those prescribed in the School of Library Service, will be given provisional credit for such courses and permitted, with the approval of the Dean, to substitute therefor other courses offered in the School, in one of the other professional schools, or in one of the Graduate Faculties. Candidates who have had courses which may be considered as equivalent of those given in the School, but for which credit cannot be given, may be permitted by the Dean to take an advanced standing examination to be given during the week preceding the opening of the academic year.

Since a candidate for any degree is required to complete in residence not less than thirty tuition points distributed over a period of not less than one academic year, admission to advanced standing does not operate to reduce the number of points or shorten the period of residence required for the degree.

Admission at Mid-Year. Candidates for the degree of Bachelor of Science will not be permitted to enter at the beginning of the Spring Session unless they present satisfactory evidence that they have had courses equivalent to those prescribed for the Winter Session. Candidates for the degree of Master of Science will ordinarily not be allowed to register in the Spring Session for any major course, or other course extending throughout the year, unless they have had the first half as given in the Winter Session.

Application for Admission. Every applicant for admission to courses leading to a degree or to a certificate must file with the Director of Admissions (a) an application on a blank to be furnished by the Secretary of the University; and (b) an official transcript of the detailed college record. Applications received after August 1 may fail to receive consideration.

College Course Preparatory to Library Service. The best preparation for library service includes a rather wide range of subjects, and no part of the college course is to be considered pre-vocational in the narrower sense. Foreign languages, literature, history, economics, sociology, psychology, and the natural sciences are important. A good reading knowledge of French and German is essential. Other modern languages are useful, and some knowledge of Latin is highly desirable. For service in specialized libraries (such as law and engineering) a student should have a thorough preliminary training in the subjects involved.

Registration, Fees, Loan Funds. For information on these subjects consult the Index.

Scholarships. Three scholarships of the value of $300 each are offered by the New York State Library School Association to candidates for the Master's degree who have taken the first year's work in the New York State Library School at Albany.

A student in the School of Library Service is eligible for appointment to a Lydia C. Roberts Fellowship if born in the state of Iowa and graduated from a college or university located in Iowa. For particulars about this fellowship the Index should be consulted.

Curriculum. The curriculum consists of two years of graduate study, the first year leading to the degree of Bachelor of Science, and the second to the degree of Master of Science. A one-year course of study leading to a certificate is open to undergraduates, normal school graduates, and other qualified persons.

1. *Bachelor of Science.* The first year, leading to the B.S. degree, offers a general course of study in library methods and technique, and such acquaintance with bibliographical works, methods of research, and the organization and administration of libraries, as will fit the student for service in public, college or university, special and elementary school and junior and senior high school libraries.

Those interested in the necessary programs of study should consult the Announcement of the School of Library Service.

2. *Master of Science.* The second year, leading to the M.S. degree, affords an opportunity for specialization in the more important fields of library service. Each student selects one field in which to specialize, the field chosen bearing some obvious relation to his previous training and experience. For this purpose six types of library service are recognized: (1) Bibliography and reference; (2) cataloguing and classification; (3) public library administration; (4) college and university library administration; (5) school libraries; and (6) library work with children. In addition to his major course, each student is required to include in his program the seminar for candidates for the degree of Master of Science, and to present an essay acceptable to the professor in charge of his major subject and to the Dean of the School. The rest of his program of fifteen points each session will ordinarily be made up of other courses offered in the School, although he may be permitted for special reasons to elect from the other graduate offerings in any department of the University, up to a total of seven points each session. For the complete

program of studies for the second year the special Announcement of the School of Library Service should be consulted.

3. *Certificate.* The one-year course leading to a certificate through University Extension and Summer Session is planned to meet the needs of persons actively engaged in library work and unable to leave their posts for a year of full-time study, as well as for those who do not have an acceptable college degree and therefore cannot qualify for admission to the graduate course. This course aims to give a professional training equivalent in general to that afforded by the library schools accredited by the American Library Association's Board of Education for Librarianship as junior undergraduate library schools. It is accepted by the New York State Education Department as meeting the requirements for certification of school librarians and professional workers in public libraries.

Summer Session. The School of Library Service offers through Summer Session graduate courses leading to the B.S. and M.S. degrees, undergraduate courses leading to the certificate, and special courses for school librarians, librarians of small public libraries, and book salesmen.

University Extension. A regular library school course leading to a certificate is offered through University Extension in classes held in the late afternoon, evening, and on Saturday morning.

Degrees. The regulations governing the granting of degrees and the certificates are as follows:

1. *Bachelor of Science.* For this degree the satisfactory completion of courses aggregating thirty tuition points, distributed over a period of not less than one academic year or its equivalent, will be required.

2. *Master of Science.* For this degree the satisfactory completion of courses aggregating thirty tuition points, distributed over a period of not less than one academic year or its equivalent, and the presentation of an essay acceptable to the professor in charge of the major subject and to the Dean of the School, will be required. In addition, each candidate must also pass (a) the regular course examinations and (b) an oral examination to test his acquaintance with the general field of professional library work.

3. *Certificate.* For the certificate, the satisfactory completion of thirty tuition points in University Extension and the Summer Session will be required. In addition to course examinations each candidate must pass a comprehensive written examination covering the entire field included within the scope of the course. Unless the candidate attains a final grade of B or higher in at least one-fourth of the courses taken, recommendation for the certificate may be withheld.

Other Degrees. For the degrees of Master of Arts and Doctor of Philosophy students in the School of Library Service must conform to the general regulations for those degrees. See Index.

For full information concerning the School see the special Announcement of the School of Library Service. Special Announcements for the Summer Session courses and University Extension courses are also available.

General regulations governing students in University Extension and Summer Session are to be found in the separate Announcements of these two departments.

All Announcements may be secured by applications to the Secretary of the University.

GENERAL STATEMENT

This College was founded in 1860 and has functioned continuously as an undergraduate college of arts, letters and sciences. In July, 1928, it was admitted into the educational system of Columbia University as one of the undergraduate colleges thereof, with equivalency to Columbia College for men and Barnard College for women.

St. Stephen's College is limited to 250 male undergraduates. It accepts and retains only those who, in the opinion of its Faculty, show exceptional intellectual ability and are really in earnest. It makes its chief aim achievement for a picked honors group in the junior and senior years. It uses as little as possible lecture methods of instruction. Its honors study system, described below, should be noted. It stresses extra-classroom contacts of teachers and students. Social life, athletics, fraternity affiliations, etc.— what are commonly known as student life and activities—while approved and cultivated, are definitely subordinated to the pursuit of hard intellectual labor. Every attempt is made to see that students are not merely instructed in facts but also taught how to approach the problems of life and thought rationally and without fear, to think them through independently, clearly, and imaginatively, and to correlate them into something approaching a philosophy. The Faculty believes that second-hand knowledge is of little value to anyone; that the student must do his own investigation and thinking, under advice from the staff, and not have it done for him by instructors. The entire college, instructors and students, lives on the campus, in an environment comparatively apart from distractions but sufficiently near to New York to prevent undue isolation. No student is retained in the College after two years unless he has shown both promise and desire. In the latter half of the course great pains are taken to develop in the students as individuals every creative or critical faculty that they possess, with as little of conventional restraint as possible.

The College believes that the human experiment which men call religion has been, and is, as important for balanced thinking as scientific investigation or logical processes. Careful instruction is given objectively about the facts, beliefs and devotional practices of the Western world, and particularly those of Judaism, Catholicism, Protestantism, and Neo-Protestantism. Every effort is made to prevent the isolation of the students either in an atmosphere of secularism or in one phase of religion narrowly conceived. An intrinsic relationship between religion and learning is assumed in all the instruction. Reverence toward the mysteries of life, death, and God, and charity toward all religions, are characteristic of every instructor. Evening Chapel and Sunday morning Chapel are by requirement to be attended. The College is under the control of a Board of Trustees, a majority of whom are communicants of the Episcopal Church, and the Chapel services are those of that body. There is no narrowly sectarian atmosphere and men of any religious faith will find their various beliefs fully appreciated and their comfort safeguarded. As a Christian college St. Stephen's aims to produce men who will go forth from its halls with a respect for all religions, a large love for humanity and a real desire to serve, coupled with an intelligent knowledge of the religious experience of the human race.

Annandale-on-Hudson, where the College is located, is a country village. The campus is on the top of the hills to the east of the Hudson River, ninety miles north of New York City, overlooking the valley and the Catskill Mountains. The railroad station is Barrytown.

Because of the intimacy of the college living, it is possible for the authorities to make the individual acquaintance of every man and to feel for him a real interest. The Warden will be glad to hear personally from prospective students or from those interested in them.

ADMISSION

In general, the admission requirements are similar to those of the other undergraduate colleges of the University. Applications for entrance should, however, be sent to the Registrar of the College at Annandale-on-Hudson. The Faculty sets its own entrance requirements, which are administered under the direction of the Director of Admissions of the University. In satisfaction of its requirements, the College will accept the certificate of the College Entrance Examination Board, or college entrance certificates of the Regents of the University of the State of New York. Certificates from secondary schools may be accepted, if the schools are recognized as of good standing. A test of general intelligence and mental alertness is also applied to candidates. Placement tests are given to entering students in mathematics, English, and the foreign languages; and the College reserves the right, if these tests show a student lacking in excellent preparation in any subject for which certificates have been accepted for entrance, to require such additional work as may be deemed advisable, without college credit.

Fifteen college entrance units must be offered, of which three shall be in English, two in a foreign language, and three in mathematics. The rest must be in the following subjects: Latin, Greek, French, German, Spanish, mathematics, history, physics, chemistry, biology, zoölogy, botany, physical geography, civil government or economics.

Further particulars about entrance may be ascertained from the Catalogue of St. Stephen's College.

ADVANCED STANDING

Students from colleges of similar grade will be admitted, without examinations, to such classes as their previous records warrant. A student transferring must pass, in the first year of his residence, not less than four courses of three hours each during each semester, with a grade of C or higher in three of them, in order to be retained in the College. Students desiring to be admitted by transfer must submit a certificate of honorable character from the institution which they have been attending.

LATE ENTRANCE

No student may be admitted for the first semester after the tenth of October or for the second semester after the fifteenth of February.

FEES

The fees at St. Stephen's College are as follows: for tuition, $180 per semester; for a room (including furniture, light, heat and care), $75 a semester; for board in hall, $150 per semester; health fee, $10 per semester; laboratory fees, $10 per semester each course; gymnasium fee, $3 per semester. It should be noted that all students are required to live on the campus and to board in hall except those residing in their own home. There is an entrance fee of $10 for new students.

REQUIREMENTS FOR THE DEGREE

Students, except those reading for honors (see below), must complete 120 semester hours of college work, as follows:

1. *English:* 6 hours of composition in the freshman year and 6 hours survey of English literature in the sophomore year.

2. *Ancient Languages:* 6 hours of college Latin, provided four years of Latin are offered for entrance; or 6 hours of Greek, provided three years of Greek have been offered for entrance. In case the requisite amount has not been offered for entrance, it must be taken in the College, with college credit, before the required work may be taken.

3. *Modern Language:* 6 hours of French or German, provided two years of French or German has been offered for entrance; otherwise, the equivalent of such entrance French or German, plus the extra year's work in the College. Spanish will be accepted for entrance, but neither Spanish nor Italian will be accepted toward fulfilling the graduation requirement.

4. *Mathematics:* 6 hours, to be taken in the freshman year, unless the student has offered for entrance college algebra and trigonometry.

5. *Physical and Biological Sciences:* 8 hours chemistry and 8 hours in biology or physics.

6. *Philosophy and Psychology:* at least a three-hour course in philosophy and a three-hour course in psychology.

7. *History:* at least 6 units.

8. *Social Sciences:* an elementary three-hour course in economics and an elementary three-hour course in sociology.

9. *Oral English:* four one-hour courses.

10. *Religion:* a survey course, taught objectively, in the content of religious belief, to be taken in the freshman year, 2 hours.

11. *Majors and Minors:* in the last two years the student must take in one department at least 18 semester hours beyond the beginning course and in another department at least 12 semester hours beyond the beginning course.

12. *Electives:* aside from the above requirements courses may be elected as the student may decide, after counsel with his faculty adviser, and with the consent of the Director of Studies.

The above requirements are for the most part confined to the first two years and are intended to introduce the student to the various divisions of modern knowledge.

The Faculty will waive any of the above requirements except those in mathematics, English, and religion for any student who can convince the Faculty of the advisability of such a procedure, in which case a special curriculum will be made by the Faculty for and with the student. Further, any student who can demonstrate that he has knowledge equivalent to that required in any course will be excused from that course as a requirement.

THE HONORS STUDY SYSTEM

The Honors Study System is urged for all students whose ability is to any degree exceptional. A student who maintains during his first two years an average grade of 75 per cent or over is permitted to study under this system in his last two years of residence. Such a student is required to take only 18 hours of class work during these last two years, instead of a normal 60 hours. Aside from this formal requirement, his time is entirely free for private reading under tutorial direction. His field of study is determined by himself and his tutor. It is expected that it shall cover a general knowledge of a chosen field and a special knowledge of some portion of that field. There are no semester examinations or course credits given in honors work. At the end of the senior year the student is examined by two scholars of repute from the faculty of other colleges. These visitors set the examinations, which include three written examinations and an oral examination. In short, the methods of teaching in honors study are a combination of the Oxford-Cambridge tutorial system and the methods used in the better graduate schools. The student is enabled to go as far and as fast as his capabilites and desire dictate. It is frequently possible for such a student to cover all of the ground usually expected for a Master's degree, except the thesis. The degree given is the Bachelor's degree with distinction.

PRE-PROFESSIONAL STUDY

The fluidity of the curriculum at the College, especially with men who read for honors, makes possible highly effective undergraduate preparation for the graduate schools or for professional schools in medicine, law, journalism, business administration, theology, etc. No attempt is made to prepare students for such graduate or professional work in less than four years.

FURTHER INFORMATION

The Warden of St. Stephen's College will be glad to correspond with students desiring further information. He should be addressed at Annandale-on-Hudson, N. Y.

SETH LOW JUNIOR COLLEGE

Seth Low Junior College was established in Brooklyn as an integral part of Columbia University on March 5, 1928, with the purpose that the University might more adequately serve the educational needs of the community. The administration of the College is under the direction of an administrative board.

Admission. The requirements for admission are the same as for Columbia College. All correspondence pertaining to admission is handled by the administrative office of Seth Low Junior College.

Location and Facilities. Seth Low Junior College is housed on the fifth and sixth floors of the Brooklyn Law School Building, 375 Pearl Street, Brooklyn, New York. This is two blocks from Borough Hall. The space occupied by the Junior College consists of a spacious library, zoölogy and psychology laboratories, statistics and accounting lecture and machine room, a large lecture room, eleven classrooms, instructors' consultation rooms, administrative offices, newspaper offices and a men's recreation room.

Professional Options: Upon receiving the number of points in Seth Low Junior College specified below, a student may take studies in the first year of the following professional schools of the University, provided he can satisfy the stated requirements for admission thereto. He may receive a Bachelor's degree on recommendation of the professional school of his choice after the satisfactory completion of two years' work in that school.

School of Architecture, 64 points.
School of Business, 60 points (exclusive of any points in physical education).

Combined Courses. Upon receiving 94 points, 64 for work in Seth Low Junior College, including all of the work prescribed for the certificate in the College, and 30 as a University Undergraduate, a student may take studies in the first year of any one of the following professional schools, provided he can satisfy the stated requirements for admission thereto, and will receive the degree of Bachelor of Science in General Studies of Columbia University upon the satisfactory completion of the year's work.

School of Architecture.
School of Business.
School of Dental and Oral Surgery.
School of Engineering.
School of Journalism.

Union Theological Seminary.

A two-year program is offered for those who intend to pursue courses in optometry.

Students who intended to enter the School of Library Service may obtain programs leading to the Bachelor of Science degree.

No course may be counted toward a professional degree and at the same time be included among those which go to make up the 94 points referred to above.

Advanced Standing. See advanced standing in Columbia College, page 149.

Special Courses. Students of serious purpose who are in a position to fill the requirements for the freshman year and who have had a practical education experience in life may be admitted as non-matriculated students to pursue courses without reference to any degree.

Registration and Fees. Before attending Seth Low Junior College every student must present himself at the office of the Registrar, Room 600, 375 Pearl Street, Brooklyn, New York. For details see the current Announcement of Seth Low Junior College.

Miscellaneous. All students admitted with conditions are assigned for advice to the Committee on Admissions until such time as their entrance deficiencies are removed. The student's performance in a course is reported according to the following grades: A, excellent; B, good; C, fair; F, failure.

A student may receive a mark of MU in a course when in the opinion of the instructor and with the approval of the officer in charge of the course the student should have the privilege of taking a second final examination.

UNION THEOLOGICAL SEMINARY

The relation between Columbia University and Union Theological Seminary is educational and not fiscal. Each institution has its own Board of Trustees and its own President. The President and two elected representatives of the Seminary Faculty have seats on the University Council and certain members of the Faculty of the Seminary sit upon the Faculties of Political Science and Philosophy.

Students from Union Theological Seminary, which requires for entrance graduation from a recognized college, are permitted to take work in the Graduate Faculties of the University and pay their fees to Columbia University, and students in the Graduate and Professional Faculties of the University are admitted to courses in Union Theological Seminary and pay their fees to Union Theological Seminary. Undergraduates in Columbia College who have completed three years of work in a pre-theological program of studies may take the fourth year in Union Theological Seminary and on the successful completion of the work of that year they may receive the A.B. degree from Columbia College.

Union Theological Seminary does not grant the A.M. degree but recommends to the Council and Trustees of Columbia University students to receive the A.M. degree in the Literature and Religion of the Bible, the Comparative Study of Christianity and Other Religions, and in Christian Education.

Candidates for the A.M. degree in the Graduate Faculties are permitted to offer toward the required year of residence, defined as thirty points, fifteen points taken in courses in Union Theological Seminary when approved by the Dean of the Graduate Faculties and the several departments involved. Work represented by these points may not be counted toward a degree in Union Theological Seminary. Candidates for the Ph.D. in the Graduate Faculties of Columbia University may offer as one of the two required years of residence the B.D. degree of Union Theological Seminary, or the A.M. degree in the Literature and Religion of the Bible, in the Comparative Study of Christianity and other Religions, or in Christian Education. This provision does not apply to the S.T.M. Candidates who offer neither of these degrees in part fulfillment of the residence requirement for the Ph.D. degree may offer fifteen points of courses in the Seminary under the conditions above set forth as applicable to the A.M. degree.

Seminary students working under the direction of the Department of Religious Education at the Seminary may become candidates for the degree of Ph.D. Work toward this degree may include courses both in the Seminary and at Teachers College subject to the limitations above set forth. Members of both Faculties share responsibility for the candidate's work upon his dissertation.

Students who are interested in the philosophy and history of religion and who have already undertaken elementary work in this field may offer themselves as candidates for the Ph.D. degree in the History and Philosophy of Religion which is jointly under the jurisdiction of the Department of Philosophy of Columbia University and Union Theological Seminary. Work leading to this degree may be taken either in Union or in Columbia University subject to the limitations above set forth.

Special regulations governing work for the degrees indicated above are printed in the appropriate catalogues published by Union Theological Seminary and Columbia University.

Historical. On April 4, 1882, a meeting was held at the office of Dr. D. B. St. John Roosa, and steps were taken that led to the founding of the New York Post-Graduate Medical School and Hospital. The college was incorporated under the general law and the introductory exercises, under Dr. Roosa as President, were held in Chickering Hall, November 4, 1882. The first lecture was given at the School on November 6, 1882. In 1884 a building was secured for the purpose of having a dispensary and hospital associated with the college, and wards were opened for men, women, and children, and an out-patient department established. In 1886 the institution secured a special charter from the state, establishing a school "for the further instruction of persons already possessing the degree of doctor in medicine." On January 1, 1930, the Reconstruction Hospital at 100th Street and Central Park West became a teaching and hospital unit of the Post-Graduate. On January 14, 1931, an agreement was signed, effective July 1, 1931, whereby the New York Post-Graduate Medical School received the status of a University school in the educational system of Columbia University through representation on the University Council.

Location and Equipment. The New York Post-Graduate Medical School began its activities in the College of Pharmacy Building on East 23d Street. In 1884 a new building was secured at 226 East 20th Street, and in May, 1894, a six-story building at the corner of Second Avenue and 20th Street was occupied. On January 11, 1912, the Frederick C. Hewitt Building was added to the existing plant and on January 22, 1925, the McKernon Building was formally opened, which at the present time houses the office of the medical school, the library, and teaching clinics. From time to time buildings contiguous to the Post-Graduate property have been purchased for the institution's work, until at the present time the School and Hospital occupy a group of buildings on the block bounded by Second Avenue, 20th Street, and 21st Street.

Plan of Instruction. It is the purpose of the New York Post-Graduate Medical School to provide, under the auspices of Columbia University, such courses of instruction as shall provide effective training and retraining for both the general practitioner and the specialist. Shorter and longer courses are offered for both groups.

I. Courses for the Training of the Practitioner and the Specialist

1. Short courses are given by means of seminars, requiring full-time study, in the following clinical branches: internal medicine, pediatrics, dermatology and syphilology, roentgenology, general surgery, gynecology, orthopedic and traumatic surgery; as well as in the following laboratory branches: pathology, bacteriology, biochemistry. These courses last from one to six months.

2. Special instruction may also be arranged on the basis of part-time work for a month or longer. Such courses are offered in medicine, pediatrics, dermatology and syphilology, neurology and psychiatry, roentgenology, surgery, and gynecology.

3. Long courses are given by means of seminars in the following specialties: dermatology, ophthalmology, oto-laryngology, and urology. These courses require full-time attendance for the entire duration of the seminar.

4. Intensive courses, with lectures, demonstrations, and clinics are offered in a number of the specialties each year such as orthopedic surgery, traumatic surgery, etc. These usually last one week.

5. A special intensive course in pulmonary tuberculosis, lasting one month, with instruction in a number of hospitals in New York City, is offered each year.

II. General Course

In addition to the above practitioner courses, a general series of lectures and demonstrations in ward and dispensary, in which all the clinical branches participate, known as the General Course, may be taken by practitioners at any time. This course usually lasts for a month, but may be extended.

III. Extramural Instruction

The following New York City hospitals have extended to the Post-Graduate Medical School the privilege of using some of their wards for teaching purposes: Metropolitan, Willard Parker, Bellevue, Seaview, and the Hospital for Joint Diseases.

Admission Requirements. To the seminar courses for practitioners, candidates for admission must be physicians in good standing, duly licensed to practice medicine in their respective states.

To the seminar courses for specialists, candidates for admission must be approved by the executive officer of the clinical department concerned.

Tuition Fees. All tuition fees are payable in advance at the time of registration.

In certain instances, deposits will be required a month in advance of the formation of a class. Where the attendance is limited and where a place in the course has been reserved, this deposit will not be returned to the candidate who fails to attend. He may, however, attend at a later time, and his original deposit will be accepted as part payment.

Checks and money orders should be made payable to the New York Post-Graduate Medical School.

A refund will not be made to a physician who fails to complete the course in which he has enrolled. The privilege will be granted him of completing the course at a later date.

Library. A medical library is maintained in the medical school building for the use of the matriculates and the teaching staff. The outstanding medical journals of this country and many foreign journals are available. Recent textbooks and monographs on special topics are provided.

The library is open from 9 a. m. until 10 p. m. on week days, and on Saturdays from 9 a. m. to 5 p. m. (except during the summer months).

Hospital Facilities. The New York Post-Graduate Hospital is a general hospital of 418 beds. During 1932 there were 9,617 in-patients admitted on all services.

The out-patient service is particularly active, and is notable for the variety of clinics. The total number of new visits in 1932 was 56,390 and revisits, 217,258.

The departments represented in the hospital service are internal medicine, general surgery, genito-urinary surgery, gynecological surgery, orthopedic surgery, traumatic surgery, otolaryngological surgery, oral surgery, pediatrics, neurology, ophthalmology, and dermatology.

The Hospital maintains complete laboratories of roentgenology, pathology, bacteriology, biochemistry, and basal metabolic determinations, in all of which routine investigation and research are actively carried on. A heart station for the making of electrocardiograms is located near the medical wards. Clinical laboratories for special study have been established in a number of departments.

The Reconstruction Hospital at 100th Street and Central Park West has 65 beds available for accident cases and conditions arising out of injury or disease. A complete department of physical therapy is in operation, and instruction is given in this branch in conjunction with seminar courses in orthopedic and traumatic surgery.

UNIVERSITY EXTENSION

ADMINISTRATIVE BOARD (See page 14)

General Statement. University Extension is defined by the University Statutes (Section 250) as "instruction given by University officers and under the administrative supervision and control of the University, either away from the University buildings or at the University, for the benefit of students not able to attend the regular courses of instruction."

Under the terms of this statute, the University has organized two divisions of instruction which form a large department of adult education. On the one hand, class instruction through University Classes offers full credit for qualified students, and may lead to degrees or certificates through the various schools. Students classified as University Undergraduates, candidates for the degree of Bachelor of Science in General Studies, may obtain credit for this degree through University Classes. Appropriate instruction is moreover available to students not interested in academic recognition. On the other hand, University Extension offers Home Study courses for students unable to attend classes and the Institute of Arts and Sciences for general intellectual advancement.

Students. University Classes are open: (1) to men or women who can give only a portion of their time to study and who do not look forward to an academic degree; (2) to those who desire to qualify themselves to attain academic recognition in the future involving acceptance of work satisfactorily completed in these classes. Students in University Classes who have completed the academic requirements for admission to the several professional schools and who have passed acceptable courses may receive advanced standing credit in these schools.

Courses of Instruction. With the approval of the University Council, University Classes may count for residence credit toward the degrees of Master of Arts and Doctor of Philosophy. Candidates for such degrees are under the jurisdiction of the Faculties of Political Science, Philosophy, and Pure Science and are subject to the specific requirements for these degrees which are stated in the divisional announcements of these faculties.

University Classes are coördinated in many instances so as to form the first years of collegiate and professional study. Thus, at Morningside Heights and elsewhere, students may enter courses which are generally offered in the freshman, sophomore, and junior years of college, and these courses may afterward be accepted upon admission to Columbia College or other undergraduate institutions for credit toward the degree of Bachelor of Arts.

There are also offered in the evening, subjects which are required of students in the School of Engineering, so that a student may pursue some special line of scientific study or prepare himself for advanced study in this school. Credit is given for courses in the School of Engineering if the student has had either a three-year college course with special attention to mathematics, physics, and chemistry or a prescribed pre-engineering course covering two years and one Summer Session. This preliminary collegiate program of study may be taken in part or in full in the evening by students engaged in business during the day.

A program of professional and academic studies is offered during the evening leading to the Certificate of Proficiency in Architecture. This Certificate is registered by the Regents of the State of New York. The purpose of the course as outlined is not merely to train clever draftsmen, but to provide fundamental instruction and discipline in the history, theory, science, and art of architecture. This training when supplemented by a sufficient amount of practice in architects' offices, will qualify the student for the independent practice of his profession. Mature students who are not candidates for the Certificate may enter individual courses in architecture. The sole condition for admission is that they possess ability and qualifications to pursue the work with success.

Practical and theoretical courses in landscape architecture, gardening, and associated subjects are offered through University Classes. Laboratory work in the University greenhouses, field trips, and excursions to private estates, supplement the classroom work.

Courses in agriculture are open to students who desire to take courses in this subject with or without credit. These courses may also, with the approval of the Committee on Instruction, form part of the curriculum leading to the degree of A.B. for students of Columbia College.

Evening classes in business are open as individual courses or they form two two-year series of 36 points each and two four-year series of 72 points each, leading to a Preliminary and a Final Certificate in General Business, and a Preliminary and a Final Certificate in Accounting. The course in accounting prepares for the state examinations for the Certificate of Certified Public Accountant. Students in University Classes who have completed the academic requirements for admission to the School of Business and who have passed acceptable business courses, may receive advanced standing credit in the School of Business for such courses to a maximum of 24 points.

A series of courses in secretarial studies leading to a certificate and intended to equip students for the position of private secretary is also offered. The curriculum normally requires two years. A circular describing these courses will be mailed upon request.

Many courses are offered which aid a student to prepare for entrance to the professional schools or to complete his preparations for Columbia College. Students wishing to take work in University Classes with the purpose of fulfilling the requirements for the qualifying certificates required by the University of the State of New York for admission to certain professional courses will find suitable courses which will assist them.

A group of courses is offered in creative writing and dramatic art planned to be of service to students who wish to heighten their appreciation of literary and dramatic forms through actual practice in the composition of those forms, to students who seek through the practice of literary and dramatic forms a freer self-expression, and to students who look forward to professional writing for publication or for the stage as a career.

The School of Library Service offers through University Classes, a regular one-year library course leading to a certificate.

Teachers College offers in coöperation with University Extension a number of technical courses in the various fields of practical arts: i.e., foods, cookery, clothing, fine arts, music, physical education, drawing, designing, etc. In many of the courses the instruction is the same as that given in the regular classes of the School of Practical Arts. In other cases, special classes are organized to meet the needs of those desiring instruction in practical arts for use in the home.

Teachers College also offers to part-time matriculated students in its School of Education a number of its regular courses at hours which are convenient for teachers. An announcement of these afternoon, evening, and Saturday courses may be obtained from the Secretary of Teachers College.

A large number of other courses in varied subjects is given late in the afternoon and on Saturday, which repeat those in liberal studies offered in the schools of the University These are given in the same manner and often by the same instructors as the regular courses. In most instances credit may be granted by the various schools of the University.

Evening courses in religious education for church school workers are offered in coöperation with the Department of Religious Education of the Greater New York Federation of Churches at ten centers so arranged throughout the different boroughs of the city as to be readily accessible to any one.

Short courses for qualified graduates in medicine are offered by University Extension at the Columbia-Presbyterian Medical Center, Broad Street Hospital, Neurological Institute, Central and Neurological Hospital, Manhattan State Hospital on Ward's Island, New York State Psychiatric Institute and Hospital, Montefiore Hospital, St. Luke's Hospital, Mount Sinai Hospital, and Reconstruction Hospital. These courses are described in separate announcements.

The University has entered into an affiliation with the New York Post-Graduate Medical School and Hospital and a number of courses in various phases of medicine are provided under this affiliation.

A program of college and professional subjects is given in Brooklyn during the late afternoon and evening at Seth Low Junior College, 375 Pearl Street.

In response to popular demand, courses of collegiate grade are given in Newark, New Jersey, in the rooms of the Young Women's Christian Association, 53 Washington Street.

Numerous courses are given at various centers. These are either regular courses of collegiate grade or short lecture courses without academic credit.

Appropriate University Classes are organized at the request of business firms to assist their employees to meet the growing need for better self-expression in business and professional contacts. This means that a corporation with a sufficiently large personnel may organize its own class of not less than twenty members. The instructor from Columbia meets the group in a classroom furnished by the corporation once each week during the college semester and the course is adapted to the occupational needs of the group.

Lecture-study courses in certain subjects forming fifteen or thirty lectures alternating with quiz or conference hours are given at Morningside Heights and at centers when requested.

The University Chorus, organized for the study of choral music, is maintained at Morningside Heights, and choral concerts are given during the year.

Registration. Students who expect to attend University Classes at Morningside Heights are required to register at the office of the Registrar, University Hall. A student registers for one session and is required to renew his registration in person at the beginning of the Spring Session.

Matriculated students in the various schools of the University will be allowed to attend University Classes in accordance with the regulations of the several schools; they must, however, register and pay the fees in the same way as other students in the several schools.

Fees. All students, matriculated or non-matriculated, admitted to University Classes, must pay at the time of registration the fees determined by the Administrative Board. The fees for courses are determined, as a rule, at the rate of $10 per point, i.e., for one hour per week of classroom work, or two hours of laboratory or drawingroom work, through one session. All students must pay a University fee of $7 for each session or any part thereof. Men students taking twelve points of academic work, are entitled to the privileges of the University Gymnasium.

Dormitories. The privilege of residence in the dormitories for students in University Classes, is limited in the case of men to students in good standing pursuing programs aggregating not less than twelve points each session. All women students under twenty-three years of age who are not living at home are required to live in a dormitory, or to obtain permission to do otherwise from one of the Advisers of Women.

Degrees. Courses approved by the Committee on Instruction in Columbia, Barnard, and Teachers Colleges are credited for matriculated students toward the degrees of A.B. and B.S., toward the diplomas in Teachers College, and toward degrees in other professional schools in accordance with the regulations established by the various faculties. The credit given for the various courses will be found in the Announcement of University Classes.

Courses may also lead to the B.S. degree in General Studies for students who obtain the approval of the Committee of the Council on University Undergraduates.

Courses which have been approved by the Faculties of Political Science, Philosophy, and Pure Science and by the Executive Committee of the University Council may be counted in part fulfillment of the residence requirements for the degrees of Master of Arts and

Doctor of Philosophy, and in the School of Business for the Degree of Master of Science, subject to the rules governing these degrees as defined in the departmental announcements.

Admission. No examination is required for admission to University Classes. Students must be at least eighteen years of age and the sole condition of admission is that they possess ability and qualifications to pursue the work with success. It is expected that prospective students in all collegiate and professional courses shall have had a full secondary school education. The courses are open, unless it is otherwise stated, to both men and women.

Location. Intramural collegiate and professional courses are given at Morningside Heights. Extramural courses are given at Seth Low Junior College, 375 Pearl Street, Brooklyn; the New York Chapter of the American Institute of Banking, Graybar Building, 43d Street and Lexington Avenue; in the rooms of the Young Women's Christian Association, 53 Washington Street, Newark, N. J.; and at centers where there may be sufficient demand.

For detailed information as to the places and hours for these courses, the qualifications for admission, the regulations for registration, candidacy for degrees, diplomas, attendance, and examinations, the fees prescribed, and for a statement of each course offered, see the current Announcement of University Classes, and the special circulars announcing courses given at the various extramural centers. These circulars may be obtained without charge upon application to the Secretary of the University.

Home Study Courses. Through University Extension, Home Study courses in a variety of subjects are offered for persons who are unable to attend classes conducted at the University. There are people who, for many reasons, are compelled to postpone their academic work and who are very reluctant to drop it entirely. According to the University's policy of providing a liberal education for all who desire it, these courses have been instituted for the benefit of those who wish, even in this limited manner, to engage in advanced study.

The University, however, asks each prospective registrant to give satisfactory indication that he can pursue further study to advantage, and prospective students are urged to enroll only in those courses for which previous training has prepared them and from which they may derive the greatest amount of pleasure and profit.

No credit toward an academic degree is given for Home Study courses by the University. Upon satisfactory completion of the work prescribed, the student receives a certificate to that effect from the Registrar of the University. All students who register for Home Study courses in order to secure credit at other institutions should make arrangements personally with those institutions.

Enrollment in Home Study courses may begin at any time, but the Department reserves the right to limit the number of courses for which a student may enroll.

All courses are outlined and carried out under the supervision and direction of members of the staff of the departments of the University.

In subjects which lend themselves to group study, arrangements can be made for pursuance of a course by the organization of a Home Study group.

For information about courses address: Home Study, Columbia University, 15 Amsterdam Avenue, New York. A special bulletin describing the Home Study courses will be sent upon request.

Institute of Arts and Sciences. The Institute of Arts and Sciences and the Home Study Courses form the non-academic division of University Extension. The aim of the Institute is to provide a popular program of general lectures and events of a cultural nature. Meetings are held each evening (except Sunday and holidays) and on occasional afternoons.

The program is planned for busy men and women. Its scope includes single lectures and short series of not over six lectures on history, literature, art, music, geography, science, and on current economic and social problems; it comprises also illustrated travel lectures, recitals, dramatic readings, and vocal and instrumental as well as chamber music concerts.

The program is subscribed for as a whole. The annual subscription of $15 covers one ticket, and $25, two tickets (to one person at one address) for entire program of approximately 200 lectures, readings, concerts, recitals, etc., throughout the season. The program continues from October to April. There is no registration fee and there are no entrance requirements.

The Institute concert series comprises six outstanding musical events by world-famous artists. Tickets for these concerts are available to Institute members at special prices.

The Institute meetings are held in McMillin Academic Theater, corner of Broadway and 116th Street. Memberships are accepted at any time and are good for one calendar year.

The President shall have charge of the educational administration of the University, and shall be the Chairman of the University Council, and of every Faculty and Administrative Board established by the Trustees. His concurrence shall be necessary to every act of the Council or of a Faculty or of an Administrative Board; unless, after his non-concurrence, the act or resolution shall be again passed by a vote of two-thirds of the entire body at the same or at the next succeeding meeting thereof. In all cases where there shall be non-concurrence between the President and a majority of the Council or Faculty or Administrative Board present at the time, the names of those voting on each side shall be entered on the minutes, and each member shall be entitled to have entered on the minutes his reasons for his vote.

§ 6. Scientific Tests. The President shall have power to permit members of the staff of instruction to use the various laboratories of the University for scientific tests or experiments under arrangements to be approved by the President, provided such use does not interfere with the normal use of the laboratories for the purposes of instruction and research.

An assistant is an officer who, either in a laboratory or in connection with classroom work, lectures, or seminars, assists the officer in charge of a given course, but to whom independent instruction is not regularly assigned.

In the case of officers giving instruction in medicine, the word clinical shall be attached to the title of those who give instruction in hospitals or elsewhere than at the college itself.

§ 63. Precedence. The officers of instruction shall take precedence in their several grades according to the dates of their respective appointments.

§ 64. Salaries. The salaries of officers of instruction rendering full-time service shall normally be fixed in accordance with the following scale, it being expressly understood that the right is reserved to treat exceptional cases in exceptional ways, and that in fixing salaries in particular instances full account will be taken of teaching effectiveness, scholarly productiveness, and academic usefulness:

Professors	$7500–	$12,000
Associate Professors	5000–	6000
Assistant Professors	3600–	4500
Instructors	2400–	3000
Assistants	1000–	1200

§ 66. Leave of Absence. Each professor, associate professor, and assistant professor who has been appointed to serve during the pleasure of the Trustees, and each assistant professor not so appointed having first had three years of service as such, shall be entitled once in every seven years to a leave of absence of one year on half pay, or to a leave of absence of one half year on full pay; such period to count as service to the University; and the President shall adjust such leaves of absence.

§ 67. Retirement. Any professor, associate professor, assistant professor or officer of administration of equivalent rank and salary, appointed by the Trustees to give full-time service in the University, and who was in service before July 1, 1917, shall be entitled to the privilege of retiring and disability allowances as follows:

a. Any such officer of administration or instruction who, having been not less than fifteen years in the service of the University, is more than sixty-five years of age may, at his own request, signified to the President in writing, or upon the motion of the Trustees, be retired from active service at the beginning of the next succeeding academic year.

b. Any such officer of administration or instruction who, having been not less than twenty-five years in the service of the University, after competent medical examination shall be adjudged unfitted by reason of disability for further work as a teacher or administrative officer, may, at his own request, signified to the President in writing, or upon the motion of the Trustees, be retired from active service at the beginning of the next succeeding academic year.

c. Officers of administration and instruction who may be retired under the provisions of this section by reason either of age or of disability, and the widows of officers who have been so retired, or who were at the time of their death eligible for such retirement, will receive, by reason of the recognition of the University as an institution associated with the Carnegie Foundation for the Advancement of Teaching, retiring allowances fixed at such amounts as the rules of the Carnegie Foundation may from time to time prescribe.

Officers of administration and instruction whose term of service began before July 1, 1917, and whose expectations under this section have been reduced by the changes in the rules of the Carnegie Foundation for the Advancement of Teaching which became effective on May 1, 1929, may supplement such allowance by a contributory annuity in accordance with the plan provided by Section 68, purchased by the payment by the University of an amount equal to 5 per cent of the annual salary of the officer, beginning July 1, 1929, on condition that the officer himself shall make a like payment. The obligation of the officer and the University in connection with such policy shall cease whenever the total retiring allowance available at the age of sixty-five as a result of the provision of the Carnegie Foundation, the supplement provided by the Carnegie Corporation, and the product of the annuity, shall reach $4,000.

Officers of administration and instruction who accept the provisions of this section shall be entitled to a total retiring allowance beginning at age sixty-five equal to one-half the average salary of the five years preceding retirement, plus $400, but not exceeding a maximum of $4,000 in any case. In case the joint payments of the officer and the University at the rate of 10 per cent of the officer's salary are not sufficient to produce at age sixty-five the allowance provided by this section, the University will make such additional payments as may be necessary to provide that allowance.

In case service is continued beyond age sixty-five the joint contributions shall continue until retirement or until payments already made will provide the allowance to which the officer is entitled.

Those officers of instruction and administration who do not accept the contributory plan for supplementing the Carnegie Foundation allowance as provided by the 1929 Rules of the Foundation shall receive from the University supplements sufficient to provide total retiring allowances in accordance with the Rules of the Carnegie Foundation as in effect from 1922 to 1929 (one-half of active pay based on average salary for the last ten years of service; maximum allowance $3,600 available at seventy and reduced in case of earlier retirement by one-fifteenth for each year by which that age is anticipated).

A widow who has been for ten years the wife of an officer who at the time of death was in receipt of a retiring allowance or who at the time of his death was eligible to a retiring allowance on the basis of age or who had had twenty-five years of service as professor or thirty years as instructor and professor, shall be entitled to a total pension of not less than one-half the total retiring allowance which her husband was receiving or to which he was entitled, provided that if he was receiving a retiring allowance at the time of his death he shall have exercised the appropriate option in reference to such portion of his total allowance as is derived from deferred annuity policies, to continue the allowance to his widow.

In the case of officers of administration and instruction for whose salaries either Barnard College, Teachers College, or the College of Pharmacy is responsible, the retiring allowances provided in this section will be paid only in case the cost thereof is assumed by that corporation included in the educational system of the University which has been responsible for the salary of the officer in question while in active service.

d. The term "officer of administration or instruction" as used in this section, shall be construed to include all officers of administration and instruction who are entitled to retiring allowances under the rules of the Carnegie Foundation for the Advancement of Teaching, so far as these apply to officers whose term of service began before July 1, 1917. In estimating length of service, years of service in other institutions that were on the associated list of the Carnegie Foundation for the Advancement of Teaching before July 1, 1917, shall be included.

e. No retiring allowance will be granted except by action of the Trustees taken either upon their own motion or at the request of the person for whom an allowance is desired.

§ 68. ANNUITIES. Any professor, associate professor, assistant professor, or any instructor who receives an annual salary of $1,200 or more, and who has been at least three years in the service of the University, or any officer of administration of equivalent rank and salary, appointed by the Trustees to give full-time service in the University and whose term of service began on July 1, 1917, or thereafter, shall be entitled to the privilege of an annuity in accordance with the plan adopted by the Carnegie Foundation in coöperation with the Teachers Insurance and Annuity Association of America, a corporation organized under the laws of the state of New York, as follows:

a. In the case of every such officer appointed by the Trustees for a term of service to begin on July 1, 1917, or thereafter, the University will pay annually to the Teachers Insurance and Annuity Association of America an amount equal to 5 per cent of the annual salary of such officer, on condition that the officer himself shall make a like annual payment; provided that in case of an officer whose salary is paid in whole or in part by Barnard College, Teachers College, the College of Pharmacy, or St. Stephen's College, the funds for the payment to the Teachers Insurance and Annuity Association, or a proportionate part thereof, shall be provided by that corporation in the educational system of the University which is responsible for the salary of the officer in question. By reason of these payments, every officer of administration or instruction and his family will receive the benefits and protection provided by the Teachers Insurance and Annuity Association of America in accordance with the contracts thereof.

b. In the case of new appointments, promotions, and increases of salary after July 1, 1930, participation in this retirement provision shall be a condition of such appointment, promotion, or increase of salary for all full-time officers of professorial grade, including administrative officers having a salary equal to the minimum salary of an assistant professor.

c. The University reserves to itself the right to apply to the Carnegie Foundation to authorize exceptions to this rule for special cases which may from time to time arise, and when the Executive Committee of the Carnegie Foundation shall decide that special conditions warrant such an exception this shall relieve the University from further obligation as to these cases.

d. When the annuity available at the age of sixty-five, as a result of the joint contributions already made by the University and an individual officer of administration or instruction, shall reach $4,000 annually, all further obligation of the University or the officer in such case shall cease.

e. For officers of administration or instruction described in this section, disability allowances will be provided by the Carnegie Foundation in accordance with its rules as announced in the document entitled "Rules for the Admission of Institutions and for the Granting of Retiring Allowances, 1922."

f. For officers of administration or instruction described in this section, retirement from active service may be granted either upon the request of the officer concerned, signified to the President in writing, or upon the motion of the Trustees, at any time after the officer has reached the age of sixty-five years.

g. Officers of administration or instruction as described in this section, and all other officers of the University who wish to secure individual insurance through the Teachers Insurance and Annuity Association of America, are privileged to do so by reason of their appointments in Columbia University.

h. Upon the written request of any officer of administration or instruction who is entitled to the privileges named in this section (68), the University will deduct 5 per cent from his stated salary payments and pay the same on his behalf to the Teachers Insurance and Annuity Association of America.

i. No officer will be retired under the provisions of this section except by action of the Trustees taken either upon their own motion or at the request of the person who desires to retire.

§ 69. Officers of administration or instruction who have been retired from active service shall have no stated duties unless otherwise authorized by the Trustees. Such officers may be invited by the Trustees to render part-time academic service or to carry on, direct, and stimulate research in their chosen fields. They shall retain their academic relationship and their names shall be included in the official lists of the Faculties.

FELLOWSHIPS, SCHOLARSHIPS, AND STUDENT AID

GENERAL REGULATIONS

The following regulations apply, unless the contrary is specifically stated, to the award of all fellowships and scholarships:

In each case application in writing, on a blank prepared for the purpose, must be filed with the Secretary of the University; for fellowships and University Scholarships on or before March 1, for other scholarships on or before May 1. Applications and documents received in support thereof later than these dates, or not distinctly indicating the name of the candidate and the fellowship or scholarship for which he applies, may fail of consideration. As an evidence of graduation, a printed certificate is preferable to the formal diploma itself, as there is risk that the latter may be lost or injured in transit.

The appointment is in each case for one year dating from July 1. The fellowship or scholarship is not available for the Summer Session or in University Extension. It may be canceled at any time if the student fails to maintain a satisfactory academic standard. Candidates will be notified as promptly as possible as to the success of their applications. If the applicant wishes the documents which he has submitted returned to him by mail he should inclose postage for the purpose. Documents will not be preserved for more than one year from the date of application.

Fellows and Scholars are required to register not later than the date specified in the University Calendar; failure to do so may be considered as vacating the fellowship or scholarship.

Unless otherwise provided, all stipends of Fellows and Scholars are paid in semiannual installments on the second Wednesday of each Winter and Spring Session.

Fellows and Scholars are required to pay the University tuition, and degree fees, as they are prescribed by the Statutes.

All Fellows and Scholars, except as hereinafter provided, shall reside in New York City or its vicinity during the academic year, unless permission be granted to study elsewhere. No University Fellow or University Scholar, as such, may pursue a professional or technical course of study during his term.

The conditions upon which the appointment is made are indicated in the following paragraphs.

A list of the fellowships, scholarships, and prizes awarded in Barnard College on the Barnard College foundation and in Teachers College on the Teachers College foundation, will be found on pages 343 to 345 of this catalogue. A full description of the terms upon which appointments are made will be found in the Announcements of these colleges.

UNIVERSITY FELLOWSHIPS

Twenty-six fellowships, known as University Fellowships (eighteen under the Faculties of Political Science, Philosophy, and Pure Science, five in Law, one in Architecture, and two in Business) are awarded annually by the University Council at its stated meeting in April to graduates of colleges and scientific schools who show themselves especially fitted to pursue courses of higher study and original investigation. The candidate must give evidence:

(a) Of a liberal education, such as a diploma from a college or scientific school of good repute;

(b) Of decided fitness for a special line of study, such as an example of some scientific or literary work already performed;

(c) Of upright character, such as a testimonial from some instructor.

Every University Fellow will receive an annual stipend of $1,800 ($1,500 beginning

1933–1934). He will be required to pay the University and tuition fees prescribed by the Statutes.

A Fellow may be reappointed for reasons of weight, but not for more than two terms of one year each. Vacancies will be filled in the same manner in which original appointments are made.

These fellowships are awarded as honors, and those who are disposed, for the benefit of others or for any other reason, to waive the pecuniary emolument, may do so, and still have their names retained on the list of Fellows. In such cases additional University Fellows may be appointed. Each Fellow is expected to perform such duties as may be allotted to him in connection with a course of study leading to the degree of Doctor of Philosophy. He is expected to devote his time to the prosecution of special studies under the direction of the department of his major interest, and before the close of the academic year to give evidence of progress by the preparation of a thesis, the completion of a research, the delivery of a lecture, or by some other approved method. No Fellow shall be allowed to accept remunerative employment or to give instruction or assistance in any department of the University except by permission of the President, and the acceptance of any such employment, without such permission, shall operate to vacate the fellowship.

Unless otherwise specified, the regulations as to the method of application for the special fellowships listed below, and conditions governing their award and tenure are the same as those for University Fellowships. ALUMNI FEDERATION OF COLUMBIA UNIVERSITY

Incorporated 1916

The purposes of the Alumni Federation are to advance the interests and promote the welfare of Columbia University and its alumni. This it endeavors to accomplish by encouraging and assisting efficient organization of alumni bodies; by forming and assisting new associations and local Columbia alumni clubs in various large cities of the world; by disseminating among alumni and the general public through an official publication or by moving pictures or otherwise, accurate information about alumni and University affairs; by providing a recognized channel of communication between students, alumni, and University officers; by keeping the alumni informed with respect to undergraduate life and activities; and by providing the machinery to nominate Alumni Trustees, and to operate the annual Columbia Alumni Fund.

All members of the alumni associations of the various schools maintained by the Trustees of the University if affiliated with the Federation are *ipso facto* Association Members of the Federation, and any alumnus may become a General Member. A payment of $100, or a multiple thereof, toward the Endowment Fund entitles an alumnus to be an Endowment Member, which carries life privileges and a life subscription to the *Columbia Alumni News.*

The Federation sets in motion the machinery which places in nomination before the University Trustees the candidates for Alumni Trusteeship. The Alumni Trustees in office in 1933 are: Linsly R. Williams, '99P. and S.; Gano Dunn, '91Mines; Rogers H. Bacon, '96; Milton L. Cornell, '05E; H. C. Pelton, '89Mines, and Richard G. Babbage, '86L.

The Federation maintains offices in 110 Library which serve as a clearing house for all alumni activities. It publishes the *Columbia Alumni News,* the official alumni publication, and is the headquarters for the Columbia Alumni Fund and of the local clubs.
